HOUSING REPUBLICAN RALLY OPENS STATE CAMPAIGN.

*ringing Declaration of Principles Sounds
Knell of Pay-Roll Brigade.*

Tremendous Gathering of Voters in San Francisco to Hear William A. Prendergast of New York Fills Hall to Capacity—Senator Boynton Makes a Strong Appeal to Rid State of Johnson Misrule.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

SAN FRANCISCO BUREAU OF THE TIMES, May 5.—Determined to battle effectively for the restoration of the government administration under which the state and became great was in the hearts of over 2000 men and women tonight, when William A. Prendergast, Controller of New York, and Senator A. E. Boynton, of New York, opened the Republican housing rally in the State.

The city officials opened the Republican campaign in the State. The speaker with which Republicanism began their fight to restore that of which they were deprived by the theft of their rights by Johnson, maintained until the next, then true progress of Republican principles again in California.

When Dr. Roland E. Hartman, chairman of the Republican Central Committee, called the meeting to order, the brass band played a stirring march. The speaker with which Republicanism began their fight to restore that of which they were deprived by the theft of their rights by Johnson, maintained until the next, then true progress of Republican principles again in California.

Senator Boynton said Gov. Johnson would not like to hear. The applause which Senator Boynton received indicated that the 2000 Republicans who listened to him did like to hear exactly what he said.

Prendergast gave reasons why the welfare of the nation depended upon Republican administration and why it was urgent that the Progressives be relegated to the list of other mushroom political organizations.

His address was a vigorous presentation of the governmental and political situation in the United States today and a convincing argument for the restoration of the only party that ever has brought prosperity and progress to this country.

Johnson would not like to hear. The applause which Senator Boynton received indicated that the 2000 Republicans who listened to him did like to hear exactly what he said.

Votes Straight Republican Now.

William A. Prendergast.

Controller of New York, the principal speaker at the Republican campaign opening in San Francisco, last night. Once he permitted himself to be called a "Progressive" and went so far as to say that he was the candidate of the rump convention in Chicago. "But I know better now," he confessed. "Make California Republican," is the slogan at his tour. From San Francisco he comes to Los Angeles.

In Readiness.

TO QUIT WHITE HOUSE FOR CABINET CIRCLE.

All Is in Readiness for the Second Wedding in Wilson Family, Which Takes Place in the Blue Room Tomorrow Night—Packing of Bride's Trousseau Indicates a Sea Voyage May Be Taken.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

WASHINGTON BUREAU OF THE TIMES, May 5.—Secretary McAdoo spent the evening at the White House going over the lists with his fiancée, for the sending of announcement cards after the wedding on Thursday. The President and Mrs. Margaret Wilson, Miss Jones, Miss Gordon and Dr. Grayson, went to the circus, occupying a box after viewing the animals outside the show tent.

Mrs. Sayre, who will be matron of honor for her sister, will arrive at the White House tomorrow morning from her home in Williamstown, Mass., where she returned last week after spending several weeks with her mother at White Sulphur Springs and at the White House. Many other relatives of the bride-elect will arrive tomorrow and Thursday morning.

Senator Martine has insisted throughout that the purchase shall be made from a Washington house, and four of the leading jewelers sent their choicest wares to the Senators for inspection. One thousand dollars will be spent on the gift. The jewelry shops here stocked with an overabundance of valuables as soon as the engagement was announced, but the company is to be so small that much of this is being left on their hands, especially the silver, as this bride is not getting so much silver plate as she is other girls.

Mrs. Marshall, wife of the Vice President, made a visit to Mrs. Wilson tomorrow.

phone tomorrow. The Cabinet hostesses have been much in doubt as to whether they should wear hats at a 6 o'clock wedding, or whether they might be expected to dress more in evening attire. This question remains yet to be settled.

EXPLOSION ON A SHIP.

Crew Puts Out in Small Boats.

Thirteen of the Columbian's Men Rescued by the Franconia.

Captain and Thirteen Other Sailors Picked Up by the Manhattan.

Survivors Made Speechless by Forty Hours' Exposure on the Atlantic.

(BY ATLANTIC CABLE AND A. P.)

CABLE ISLAND (N. Y.) May 4.—Capt. McDonald and thirteen members of the crew of the British steamer Columbian, burned at sea, were saved by the steamer Manhattan. A wireless dispatch to this effect was received from the Manhattan by the Marconi station early today.

SHIP'S IDENTITY IS SOLVED.

BOSTON, May 5.—Mystery surrounding the identity of the steamer which has been on fire south of Sable Island for forty-eight hours was solved tonight when wireless messages from the Cunard liner Franconia told of the burning of the freighter Columbian and the rescue of thirteen members of her crew from a small boat.

The death of Chief Steward Matthews, whose body the survivors had in charge, and the disappearance of a second boat, in which were nineteen men, including the first and second officers, were also reported.

Whether the number of men, it was reported by those said to be in the second boat, was still uncertain tonight. The number of the men, it was reported, was between fifty and fifty-five. The messages from the Franconia told of only thirty-three rescued by the company of the two boats.

The survivors were so exhausted by their experience that they could tell little of what had happened and steamship officials expressed the opinion that the omission in the wireless messages of mention of the captain might be laid to this fact.

After rescuing the occupants of the first boat the Franconia searched until nightfall for the rest of the crew, but without result. Capt. Miller of the Cunard liner word that he had given up the search and would proceed for Boston with the survivors and his 1732 passengers. He said he expected to arrive at midnight Wednesday.

The Columbian was owned by the Leland line, but was chartered to the Phoenix line for a voyage from Antwerp to New York. She carried no passengers.

THIRTEEN MEN ON FRANCONIA.

(BY A. P. NIGHT WIRE.)

ON BOARD STEAMER FRANCONIA, via Sable Island (N. S.) May 4.—The thirteen survivors of the British steamer Columbian, bound from Antwerp for New York, which caught fire at Sunday night, were picked up today by the Cunard liner Franconia, bound from Liverpool for New York.

In the boat with the survivors was the body of the chief steward, Matthews. Another boat, containing the chief and second officer and seventeen men, was still adrift. The Franconia was unable to find it.

Those aboard the Franconia are: James Drohan, wireless operator; Antonio Elia, carpenter; Ivor Liverpool, hostess; a mate; Eugene Kriz, Jens Jensen, A. Ahelick, quartermaster; Gustav Schreiber, donkey man; Thomas Connor, Juri Lei and Arthur Brautik, able seamen; Antony Cordones and Bennett Rother, fireman; and Frank Wedekind, messroom steward.

The survivors suffered terribly during forty hours' exposure in an open boat. Their exhaustion was so great that it was impossible to obtain a coherent story from them several hours after they were picked up.

The Columbian caught fire Sunday night when about 300 miles south of Cape Race. A series of explosions followed immediately. Capt. McDonald ordered the wireless operator, James Drohan, to send out calls for assistance, but one of the explosions put the wireless apparatus out of commission.

With the vessel exploding flames and torn by the explosions, it soon became evident that the crew could do nothing and the order to abandon the ship was given.

The men left the Columbian in two boats. Chief Steward Matthews was in charge of the first. This boat put away and lay for a time, but in the dense smoke which surrounded the burning vessel the other boat was not visible and the steward's boat drifted away from the main body.

Of their suffering during the forty hours in which they were tossed about and of the death of Chief Steward Matthews during this time, the men could say little when they were brought onto the decks of the Franconia.

Food and sleep were the first considerations, and although sympathetic passengers were treated with offers of assistance, Capt. Miller of the Franconia saw to it that the survivors were first given the required rest.

Having learned that another boat with nineteen men, probably included

WHOLESALE CRUCIFIXION.

Two Hundred and Fifty Mohammedans Are Nailed to the Cross.

(BY ATLANTIC CABLE AND A. P.)

DURAZZO (Albania) May 5.—Two hundred and fifty Mohammedan Albanians, captured by the Epirote invaders at Hormova, were crucified in the orthodox church at Kodra, according to information received by the Albanian government.

The Epirote are said to have set fire to the church afterward and allowed the bodies to burn.

Expansion.

"LITTLE NAVY" PLAN BEATEN.

TWO BATTLESHIP PROGRAMME ADOPTED IN HOUSE.

Fight Made in Favor of Vessels Being Built at Private Plants Instead of Government Yards—Envoys Proceedings and the Debate Will Be Resumed Tomorrow.

(BY A. P. NIGHT WIRE.)

WASHINGTON, May 5.—"Little navy" men in the House today lost their fight against the two-battleship construction programme in the annual Navy Appropriation Bill. An amendment by Representative Buchanan of Illinois to provide for one ship was defeated, 148 to 91, while a motion by Representative Witherspoon of Mississippi to eliminate all provision for battleships, was swamped, 152 to 41.

Democratic Leader Underwood and Republican Leader Mann, with several other prominent figures in the House, voted with the one-ship advocates.

When the House adjourned the remainder of the building programme was pending, with a motion by Representative Maher of New York that at least one of the new battleships be constructed in a navy yard, and one by Representative Moore of Pennsylvania that both contracts go to government plants.

Representatives of districts in which private yards are located are making a vigorous fight against these proposals. Representative Jones of Virginia with the battleship New York, built at the Brooklyn Navy Yard, cost \$1,000,000 more than her sister ship, the Texas, the product of a private builder.

Chairman Padgett of the Naval Committee said that on account of the delay of work it would mean a delay of at least a year to build the ships in government yards. Consideration of the bill will be resumed Thursday.

"Gilded Youth."

YOUNG BELMONT MUST PAY WIFE.

SHE WINS SEPARATION SUIT AGAINST RAYMOND.

In Fixing the Alimony of One Hundred Dollars a Month, New York Judge Estimates Earning Capacity of Millionaire's Son at Nine Hundred a Year.

(BY A. P. NIGHT WIRE.)

NEW YORK, May 5.—Ethel Lorraine Belmont today won her separation suit against Raymond Belmont, son of August Belmont, the financier. Alimony at the rate of \$100 a month was allowed. Ethel Lorraine had passed as an actress, although she had never been on the stage.

ADMIT POTENCY OF FAITH CURE.

English Ministers and Doctors File Their Report.

Believe Divine Power Shown in the Natural Laws.

Say Physicians and Spiritual Healers Should Join.

(BY ATLANTIC CABLE AND A. P.)

LONDON, May 5.—An important contribution to one of the foremost topics of the day is found in the report today of the committee on spiritual healing, or faith cure, appointed by the conference of the clerical and medical professions held in October, 1911.

The committee, which is composed of prominent clergymen and doctors, in its conclusions, says:

"The members of the committee fully recognized that the operation of the divine will, and they desire to express their belief in the efficacy of prayer. They reverently believe, however, that the divine power is exercised in conformity with and through the operation of natural laws. With adequate knowledge of these laws, increasing benefits are being secured for mankind through human instruments."

"Especially is this the case in the healing of disorders of the body and the mind, and they consider that the spiritual ministrations should be recognized equally with medical ministrations, as carrying God's blessing to the sick."

"The committee is of the opinion that the results of what is called faith or spiritual healing does not, however, differ from those of mental healing, or healing by suggestion."

"The committee recognizes that suggestion is more effectively exercised by some persons than others, which would seem to explain the claims claimed by healers. The use of religious influences does not differ essentially from non-religious appeals to the mind, yet the former are often more potent."

"Faith or spiritual healing can be permanently effective only in functional disorders as distinguished from organic disorders, and the committee warns against resorting to healers and postponing medical treatment."

"Spiritual ministrations may contribute to the success of medical treatment and we desire to see more importance attached to them, but we strongly deplore the independent treatment of disease by irresponsible and unqualified persons."

The members of the committee includes Herbert E. Ryle, dean of Westminster; H. H. Benson, dean of Durham; William R. Inge, dean of Paul's; Henry J. Paget, bishop of Stepney; and Archbishop Sinclair. Among the medical members are Sir Dyce Duckworth.

SOME DIFFERENCES.

The witnesses examined by the committee differed in their definitions of spiritual and mental healing. Some regarded the former as a divine intervention above the laws of nature, while most of them held that spiritual healing is today with the gifts of healing of the apostolic church, saying they thought these had long been dormant, although never wholly interrupted.

The witnesses differed widely as to whether moral excellence in the healers or the healed was essential for success.

Most of them gave convincing evidence of beneficial results in functional nervous diseases and cases of alcoholism and drug taking, but one gave satisfactory evidence of any case of organic disease cured by spiritual or faith healing alone.

Arraigned.

SCORES BAITING OF THE NEGRO.

VILLARD DECLARES NORTH CAUSE SOLVE SOUTH'S PROBLEM.

President of New York Paper Denounces Demagogues and Politicians Below the Mason and Dixon Line Who Rise to Enslavement by Their Onslaught on the Colored Race.

(BY A. P. WIRE.)

BALTIMORE (Md.) May 5.—In an address today before the sixth conference of the National Association for the Advancement of Colored People, Oswald Garrison Villard, president of the New York Evening Post, declared the negro of the South is the victim of the "Negro baiting politicians," and said that he believed the solution of the problem rested with the "interlopers" from the North.

"We of the North boldly venture to believe that we can solve this great race problem," said Villard. "The wisdom of the anti-slavery mission in the North, which, with the aid of military necessity, compelled Lincoln to issue his Emancipation Proclamation, has since been justified of all men."

"In the question of caring for the negro the South is divided within itself. Within its own ranks there are malcontents and rebels against the dominating public sentiment, the sentiment that is voiced today by eminent demagogues risen to prominence on the backs of the negro. It is these violent anti-negro southern Senators and Congressmen that we behold in our chief enemies, as we behold in certain promises that the confederates and justice of the North, will eventually solve this terrible problem arising from the negro's fall to rise again."

"When the negro falls to rise again, the southern Senators cheerfully assert that this proves the negro incapable of advancing and half-brother of the white man. You name a school, drive the negro child of all Atlanta, as \$600 are deprived of a home, turn him adrift if he grows up on the streets, and then if he grows up a criminal you say that proves his race inferior; that that proves him a beast, and his race inferior to the white man. There is a people cannot rise in the path of civilization and a more determined effort to prevent their rising."

THREE KILLED ON CAR.

(BY A. P. WIRE.)

DETROIT, May 5.—Three persons were killed and thirty-six others seriously injured when two crowded street cars met head on here today.

The cars were crowded with passengers and were traveling in opposite directions when they collided. The cars were badly damaged and the passengers were scattered in all directions.

The police are investigating the cause of the collision. It is believed that the cars were traveling too fast and that the driver of one of the cars was negligent.

The injured persons are being treated in the local hospitals. The police are trying to locate the driver of the car that was traveling too fast.

The police are also trying to locate the driver of the other car. It is believed that the driver of the other car was also negligent.

The police are trying to locate the driver of the other car. It is believed that the driver of the other car was also negligent.

The police are trying to locate the driver of the other car. It is believed that the driver of the other car was also negligent.

MACHINE ELECTS PAUL MAYOR.

English Ministers and Doctors File Their Report.

Believe Divine Power Shown in the Natural Laws.

Say Physicians and Spiritual Healers Should Join.

(BY ATLANTIC CABLE AND A. P.)

Interested in the welfare of an organization, and I do not believe that one that does not justify public confidence can maintain its leadership if a proper effort is made to dislodge him.

English Ministers and Doctors File Their Report.

Believe Divine Power Shown in the Natural Laws.

Say Physicians and Spiritual Healers Should Join.

(BY ATLANTIC CABLE AND A. P.)

LONDON, May 5.—An important contribution to one of the foremost topics of the day is found in the report today of the committee on spiritual healing, or faith cure, appointed by the conference of the clerical and medical professions held in October, 1911.

The committee, which is composed of prominent clergymen and doctors, in its conclusions, says:

"The members of the committee fully recognized that the operation of the divine will, and they desire to express their belief in the efficacy of prayer. They reverently believe, however, that the divine power is exercised in conformity with and through the operation of natural laws. With adequate knowledge of these laws, increasing benefits are being secured for mankind through human instruments."

"Especially is this the case in the healing of disorders of the body and the mind, and they consider that the spiritual ministrations should be recognized equally with medical ministrations, as carrying God's blessing to the sick."

"The committee is of the opinion that the results of what is called faith or spiritual healing does not, however, differ from those of mental healing, or healing by suggestion."

"The committee recognizes that suggestion is more effectively exercised by some persons than others, which would seem to explain the claims claimed by healers. The use of religious influences does not differ essentially from non-religious appeals to the mind, yet the former are often more potent."

"Faith or spiritual healing can be permanently effective only in functional disorders as distinguished from organic disorders, and the committee warns against resorting to healers and postponing medical treatment."

"Spiritual ministrations may contribute to the success of medical treatment and we desire to see more importance attached to them, but we strongly deplore the independent treatment of disease by irresponsible and unqualified persons."

The members of the committee includes Herbert E. Ryle, dean of Westminster; H. H. Benson, dean of Durham; William R. Inge, dean of Paul's; Henry J. Paget, bishop of Stepney; and Archbishop Sinclair. Among the medical members are Sir Dyce Duckworth.

SOME DIFFERENCES.

The witnesses examined by the committee differed in their definitions of spiritual and mental healing. Some regarded the former as a divine intervention above the laws of nature, while most of them held that spiritual healing is today with the gifts of healing of the apostolic church, saying they thought these had long been dormant, although never wholly interrupted.

The witnesses differed widely as to whether moral excellence in the healers or the healed was essential for success.

Most of them gave convincing evidence of beneficial results in functional nervous diseases and cases of alcoholism and drug taking, but one gave satisfactory evidence of any case of organic disease cured by spiritual or faith healing alone.

SCORES BAITING OF THE NEGRO.

VILLARD DECLARES NORTH CAUSE SOLVE SOUTH'S PROBLEM.

President of New York Paper Denounces Demagogues and Politicians Below the Mason and Dixon Line Who Rise to Enslavement by Their Onslaught on the Colored Race.

(BY A. P. WIRE.)

BALTIMORE (Md.) May 5.—In an address today before the sixth conference of the National Association for the Advancement of Colored People, Oswald Garrison Villard, president of the New York Evening Post, declared the negro of the South is the victim of the "Negro baiting politicians," and said that he believed the solution of the problem rested with the "interlopers" from the North.

"We of the North boldly venture to believe that we can solve this great race problem," said Villard. "The wisdom of the anti-slavery mission in the North, which, with the aid of military necessity, compelled Lincoln to issue his Emancipation Proclamation, has since been justified of all men."

"In the question of caring for the negro the South is divided within itself. Within its own ranks there are malcontents and rebels against the dominating public sentiment, the sentiment that is voiced today by eminent demagogues risen to prominence on the backs of the negro. It is these violent anti-negro southern Senators and Congressmen that we behold in our chief enemies, as we behold in certain promises that the confederates and justice of the North, will eventually solve this terrible problem arising from the negro's fall to rise again."

"When the negro falls to rise again, the southern Senators cheerfully assert that this proves the negro incapable of advancing and half-brother of the white man. You name a school, drive the negro child of all Atlanta, as \$600 are deprived of a home, turn him adrift if he grows up on the streets, and then if he grows up a criminal you say that proves his race inferior; that that proves him a beast, and his race inferior to the white man. There is a people cannot rise in the path of civilization and a more determined effort to prevent their rising."

THREE KILLED ON CAR.

(BY A. P. WIRE.)

DETROIT, May 5.—Three persons were killed and thirty-six others seriously injured when two crowded street cars met head on here today.

The cars were crowded with passengers and were traveling in opposite directions when they collided. The cars were badly damaged and the passengers were scattered in all directions.

The police are investigating the cause of the collision. It is believed that the cars were traveling too fast and that the driver of one of the cars was negligent.

The police are also trying to locate the driver of the other car. It is believed that the driver of the other car was also negligent.

The police are trying to locate the driver of the other car. It is believed that the driver of the other car was also negligent.

The police are trying to locate the driver of the other car. It is believed that the driver of the other car was also negligent.

The police are trying to locate the driver of the other car. It is believed that the driver of the other car was also negligent.

(ADVERTISEMENT)

Power Campaign Lies Nailed By Formal Purchase Offer

Here is the formal offer to buy all the aqueduct power at a price to be set by the Railroad Commission. This offer was filed yesterday with the city council:

Los Angeles, California, May 5, 1914.

In view of the erroneous and misleading statements which are being made concerning our offer to purchase the city's power, we hereby, without condition or restriction of any kind whatsoever, offer to purchase all electric power which the city may generate from its aqueduct system necessary for the supply of the city of Los Angeles and its inhabitants, to be delivered to us at a sub-station in the city of Los Angeles for a period of five years after the completion of the city's first installation.

We will pay for this power such rate as may be determined by the California Railroad Commission.

We assume that the Railroad Commission will fix a fair price, and if the city's power is developed along proper engineering lines, the revenue which the city will receive from its power during such five years will not be less than \$5,000,000; of this average sum of \$1,000,000 per annum, \$800,000 per annum would be available for reduction of taxes.

Respectfully submitted,

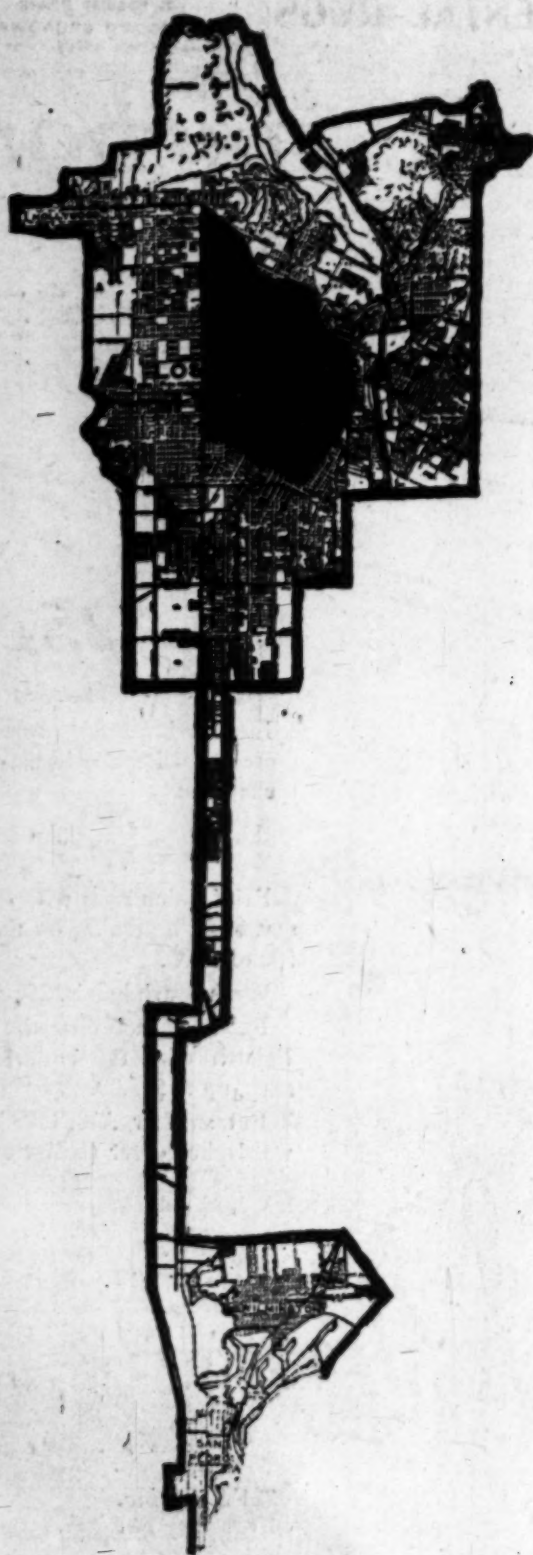

SOUTHERN CALIFORNIA EDISON COMPANY,
By W. A. Brackenridge, Vice-President.

LOS ANGELES GAS AND ELECTRIC CORPORATION,
By William Baurhyte, Vice-President.

PACIFIC LIGHT AND POWER CORPORATION,
By G. C. Ward, Vice-President.

If these unnecessary \$6,500,000 power bonds are voted the increase in tax burden will be just started. This is true in spite of Scattergood's claim to the contrary.

C. K. Mohler, engineer of the Board of Public Utilities, frankly made this statement before the City Club last Saturday, with the statement that in spite of Scattergood's claim additional bonds must be voted for steam plant and extensions. Mohler also spoke strongly against the non-segregation of the two issues upon the ballot.

IF YOU LIVE WEST OF VERMONT AVENUE—
IF YOU LIVE SOUTH OF ADAMS STREET—
IF YOU LIVE EAST OF ALAMEDA STREET—
IF YOU LIVE NORTH OF SUNSET BOULEVARD—

YOU MAY NOT BE SERVED
BY THE PROPOSED DISTRIBUTING SYSTEM, EVEN IF
THE BONDS SHOULD CARRY.

REMEMBER, you will be taxed anyway.

The dark space in the center shows how much of a distributing system to fully supply consumers can be built for \$5,250,000.

This map was made by J. A. Lighthipe, for years Thomas A. Edison's right-hand engineer, a man of national and European reputation, who for twenty years has been recognized as the greatest electrical construction engineer on the Pacific Coast.

Lighthipe agrees with Scattergood's statement before the Merchants and Manufacturers' Association that it will take "FOUR OR FIVE MILLION DOLLARS MORE TO COVER THE ENTIRE CITY."

REMEMBER, if you are not taxed for bonds you will be taxed for special assessments.

If you live in the South, remember your Exposition Park assessments.

If you live on the West Side, think of the tunnel, sewer and Silver Lake Park-way assessments. Don't forget West 16th street.

If you live in the Northwest, remember Sunset boulevard.

If you live in Boyle Heights, look out for storm drains.

If you live in Highland Park you will find storm drain assessments there.

If you live in San Pedro or Wilmington think of the unfulfilled harbor pledges and your assessments.

REMEMBER, SCHOOLS ARE MORE IMPORTANT THAN POWER BONDS.

REMEMBER THAT THE TOTAL ISSUES TO BE VOTED ON THIS MONTH IS \$11,100,000.

REMEMBER, THAT THE SCHOOLS REQUIRE A \$4,600,000 BOND ISSUE MAY 14TH.

**Vote "NO" on the Power Bonds
and Save Your Money for
Your Children's Schools**

Power Bond Committee.

WANTS TO STOP ALL APPEALS FOR COLORADO.

La Follette Fears Plot to Rate Increase.

Says Commerce Commission Is Being Coerced.

Would Imprison Who Merely Contends.

WASHINGTON, May 5.—Three La Follette laid before the Senate today what he said was evidence of a widespread conspiracy to influence the Commerce Commission to grant rate increases on the part of the railroads.

The Senator spoke on his bill to make it a criminal offense to influence the Commerce Commission to grant rate increases. He produced a mass of newspaper clippings, copies of letters and telegrams which found their way to the Commerce Commission in the past few months before the railroads made their application.

Under the law, the Senate of the commission must reach its decision on the evidence and the commission advanced through such a process.

In the course of his speech, the Senator declared that in the past few months he had been made aware of the fact that the railroads were endeavoring to influence the Commerce Commission to grant rate increases.

When Senator Jones pointed out that there had been no such thing as a rate increase in the past few months, the Senator said that he was glad to hear this statement and hoped that it would appear in his commission's report.

The Senator warned his colleagues that there is a growing sentiment in the minds of the people, and that it is a matter of time before the railroads will be forced to pay for the property interests of the people.

More than 2000 complaints have been received by the commission, and the Senator said that he had received 100 petitions, resolutions and letters urging the increase.

He said that as a result of one advertisement in a trade journal in the West, he had received about 100 letters and that he had received a communication from a man who said that he was a member of the commission.

"There is no mistake about it," the Senator said, "that there has been a conspiracy to influence the Commerce Commission to grant rate increases."

He said that he was sure that the railroads were endeavoring to influence the Commerce Commission to grant rate increases, and that he was sure that the people were aware of this.

He said that he was sure that the railroads were endeavoring to influence the Commerce Commission to grant rate increases, and that he was sure that the people were aware of this.

ITCHING ERUPTION

ON ARMS AND LIMBS

Became Red and Pimples Formed.

Could Not Keep from Scratching.

Clothing Irritated It. Cuticura

Soap and Ointment Cured.

Cassidy, Kansas.—"Some two or three

years ago the trouble began with irritation

and itching on my arms and lower limbs.

The affected parts became red and pimply

eruption formed. The itching was so

severe that I could not keep from scratching

and some sores formed on my face and limbs.

The clothing irritated at times and made the

itching worse.

"I tried various remedies relating to

some extent the trouble but I continued to

suffer and finally the malady spread over

my body but was very bad on my head and

face and around my waist. The skin be-

came rough and thick and sores formed on

my face. The itching and burning often

kept me awake at night. I began using

Cuticura Soap and Ointment last winter.

I bathed with the Cuticura Soap and hot

water at least once a day and used the Cuti-

cure Ointment two or three times a day.

In five months it was cured. (Signed) E.

Cassidy, Sept. 17, 1913.

The regular use of Cuticura Soap for toilet

and bath not only tends to preserve, purify

and beautify the skin, scalp, hair and hands,

but assists in preventing inflammation, irri-

tation and clogging of the pores, the common

cause of pimples, blackheads, redness and

itching. It is sold by druggists and dealers

throughout the world. Liberal sample of

each mailed free, with 32-33 Cuticura.

Address postcard "Cuticura," Dept. T, Boston.

Dr. J. C. Murray to Visit Calexico.

SAN FRANCISCO, May 5.—(Pro-

visional President Huerta in the

House of Commons to ask the Amer-

ican government to "abandon its po-

sition that the removal of Gen. Huerta

is of greater moment than the restora-

tion of peace and the protection of life

and industry in Mexico."

The Foreign Secretary declined, de-

claring that the first man killed at the

demonstration had been a British

subject. He said that the British

government would make separate pro-

posals on its own account to either

Washington or Mexico.

REBEL SCOUTS

CUT RAILROAD.

CHIHUAHUA (Mex.) May 5.—It

was learned here today that the rail-

road between Sallito and San Luis

Potosi has been cut by a rebel scout

party. It is believed this will cut

off the advance of any Federal re-

FLAYS A WEAK MEXICO POLICY.

Humiliated Angelino Tells of German Rescue.

Says Wilson Plan Disgraces American Nation.

Thinks War Dogs Should Be Unleashed Pronto.

With a verbal flaying of the Wilson administration for its weak and vacillating Mexican policy, George G. Hunt of this city yesterday told of his feeling of humiliation and recounted his experiences at Tampico, whence he arrived but a few hours before, by way of Galveston.

Hunt is superintendent for the Tampico Oil Company, Limited, and has been in Mexico twelve years. He is thoroughly conversant with conditions and knows the Mexican character accurately, having had thousands of them under his employ, and also knows their feeling toward the present trouble. He got out with nothing except the suit of clothes he wore, but he did not come away voluntarily.

"I have always been a loyal American," he said, as he sat on the porch of his Colgrove home, "no matter what the policy of the home administration, until now. It is an outrage that Wilson is unwilling to learn anything about Mexican personality. He has sought to inject into the Mexican character the thing he thinks should be there and has absolutely refused to have his information from the Mexicans. He has sought to inject into the American character the thing he thinks should be there and has absolutely refused to have his information from the Americans in Tampico offered to go to Washington at their own expense and give him definite information from their standpoint, but they were told they were not wanted. His policy has been weak and vacillating, where it should be strong and aggressive. He has blundered from the first and is too stubborn to acknowledge it."

HUMILIATING RELIEF.

"Following the seizure of Vera Cruz, the greatest mistake the administration made was in withdrawing the warships from Tampico. At 11 o'clock that morning Huerta had posted throughout the city, and of course in all parts of Mexico, an inciting bulletin declaring that their country had been invaded by the hated Americans and calling upon every Mexican to defend it with the last drop of his blood."

"The Japanese was placed in the automobile and the 'police' started for the Receiving Hospital. On the way, not far from the scene of the accident, they crashed into an automobile owned and driven by J. W. Alexander, snapping the front wheels of the Keystones auto, but not hurting any of its occupants. The Japanese was transferred to Alexander's machine and brought to the hospital. G. W. Cavender, of the actor-police accompanying him. Tanaka lives at No. 1402 Tamarind street. After receiving treatment he went home."

BURNED BY FURNACE.

Mrs. I. L. Keefe, proprietress of the Monteth apartments at No. 425 South Fremont avenue, said yesterday that a red-headed Italian, who lives there, was badly burned about the face and hands early last night when the furnace in the basement of the building exploded. They were treated at the Receiving Hospital. The oil furnace at the Monteth apartments is a complicated apparatus. When Mrs. Keefe went below to shut it off, she asked Warner to assist her, but what happened neither she nor he could tell. One of the two furnaces was an explosion. Both were knocked down and the leaping flame badly burned the man.

HURT IN CELL.

J. J. Courges, under arrest on suspicion of having worked the bunco game among the poorer class of Italians in Southern California, was found in his cell yesterday morning, his skull fractured and unconscious. He was taken to the Receiving Hospital, where he was treated and at once sent to the County Hospital. His recovery is doubtful.

AGED WOMAN RUN DOWN.

Just after alighting from a Washington street car at Arapahoe and Washington streets yesterday afternoon, Mrs. H. M. Rose, 52 years old, living at No. 1630 Arapahoe street, was run down by a motorcycle driven by an unidentified man. She was thrown to the pavement, her wrist dislocated and her head severely bruised.

RAPID SUCCESSION.

Automobile, motorcycle and street-car accidents furnished most of the work at the Receiving Hospital Monday night. Early in the evening four accidents produced five victims in more or less rapid succession. None was fatally injured.

Francisco Carvallo, 17 years old, of No. 509 Coyote place, and Fidel Gutierrez, 17, of No. 416 North Broadway, riding a bicycle, were thrown from the car at the intersection of the automobile driven by R. W. Carter of No. 144 West Forty-seventh street. Both were badly bruised about the head and body.

Frank Conns of No. 511 Daly street, driving a motorcycle, was struck at Second street and Central avenue by an automobile driven by W. H. Hobbs of No. 307 Keith street. He has a possible fracture of the skull and serious cuts on the face.

O. D. Stone of No. 769 Ruth avenue, a deputy county tax collector, fell off a street car at Seventh street and Ruth avenue, and has a possible fracture of the left wrist. He lost his balance on the step of the car. After treatment at the Receiving Hospital he went home.

When you make a gift, nothing speaks your regard better than the high quality of Koh-i-noor penning pencils. A variety of exquisite designs, smooth lead, easy writing—Advertisement.

there are now about 1,500,000 barrels in storage on the field, and this, together with the great producers, have been left "to the mercy of people who have no mercy."

They cannot market the oil and have no use for it, and the only fate that can befall the property is that they may fire the oil and the wells, causing unestimated loss. The greatest well in the Panuco field flows the unbelievable quantity of 155,000 barrels a day, though it has never been permitted to flow to the limit of its ability. The output of the field is about 155,000 barrels a day.

Mr. Hunt is a brother of Rockwell D. Hunt of the University of Southern California, and expects to return to Tampico the moment he is notified that he will be permitted to land. He is in hourly expectation of receiving the assurance.

"I almost forgot," he said, "to speak of President Wilson's demand for a 'fair election.' No such thing is possible in Mexico. When the election was held, one precinct in Tampico, which contains between 4,000 and 5,000 inhabitants, cast five votes, and three of them were cast by election officers. His 'watchful waiting' policy is a disgrace to the American nation and simply shows the utter unfitness of himself and Secretary Bryan to handle the situation."

MISHAPS KEEP DOCTORS BUSY.

MOTORISTS CAUSE MOST OF RUSH AT RECEIVING HOSPITAL.

"Movie" Actors, Bearing Man-They're Injured to a Physician, Have Second Smash-Up—Refers to Old Furnace Seriously Burns Man and Woman.

Accidents serious and trivial for two days have kept doctors and nurses at the Receiving Hospital busy. Motorists who drove badly have furnished most of the victims, who have made rush days for the city's first aid institution, and caused the ambulance to discharge its burdens often in rapid succession.

An automobile filled with "movie" actors for the Keystone Film Company, ran into S. Tanaka, a Japanese gardener who was riding a motorcycle at Wiltona and Hollywood boulevards early last evening and wrecked his machine. Tanaka was severely bruised about the head and body.

The Japanese was placed in the automobile and the "police" started for the Receiving Hospital. On the way, not far from the scene of the accident, they crashed into an automobile owned and driven by J. W. Alexander, snapping the front wheels of the Keystones auto, but not hurting any of its occupants. The Japanese was transferred to Alexander's machine and brought to the hospital. G. W. Cavender, of the actor-police accompanying him. Tanaka lives at No. 1402 Tamarind street. After receiving treatment he went home."

BURNED BY FURNACE.

Mrs. I. L. Keefe, proprietress of the Monteth apartments at No. 425 South Fremont avenue, said yesterday that a red-headed Italian, who lives there, was badly burned about the face and hands early last night when the furnace in the basement of the building exploded. They were treated at the Receiving Hospital. The oil furnace at the Monteth apartments is a complicated apparatus. When Mrs. Keefe went below to shut it off, she asked Warner to assist her, but what happened neither she nor he could tell. One of the two furnaces was an explosion. Both were knocked down and the leaping flame badly burned the man.

HURT IN CELL.

J. J. Courges, under arrest on suspicion of having worked the bunco game among the poorer class of Italians in Southern California, was found in his cell yesterday morning, his skull fractured and unconscious. He was taken to the Receiving Hospital, where he was treated and at once sent to the County Hospital. His recovery is doubtful.

It is alleged that Courges is a victim of epileptic attacks, and the explanation of his severe injury is that he fell during one of these attacks and struck his head against the bars in his cell.

He was arrested in company with James Petersen and Mike Clark. Courges is alleged to have played the role of innocent farmer in the activities of the trio.

AGED WOMAN RUN DOWN.

Just after alighting from a Washington street car at Arapahoe and Washington streets yesterday afternoon, Mrs. H. M. Rose, 52 years old, living at No. 1630 Arapahoe street, was run down by a motorcycle driven by an unidentified man. She was thrown to the pavement, her wrist dislocated and her head severely bruised.

The motorcycleist immediately secured a rent automobile and rushed the aged woman to her home, where her condition was pronounced not serious, though she suffered from the shock.

A large crowd collected and spectators took the name and address of the motorcycleist, but no report of the affair was made to the police. The man gave his address as No. 223 Copp building.

RAPID SUCCESSION.

Automobile, motorcycle and street-car accidents furnished most of the work at the Receiving Hospital Monday night. Early in the evening four accidents produced five victims in more or less rapid succession. None was fatally injured.

Francisco Carvallo, 17 years old, of No. 509 Coyote place, and Fidel Gutierrez, 17, of No. 416 North Broadway, riding a bicycle, were thrown from the car at the intersection of the automobile driven by R. W. Carter of No. 144 West Forty-seventh street. Both were badly bruised about the head and body.

Frank Conns of No. 511 Daly street, driving a motorcycle, was struck at Second street and Central avenue by an automobile driven by W. H. Hobbs of No. 307 Keith street. He has a possible fracture of the skull and serious cuts on the face.

O. D. Stone of No. 769 Ruth avenue, a deputy county tax collector, fell off a street car at Seventh street and Ruth avenue, and has a possible fracture of the left wrist. He lost his balance on the step of the car. After treatment at the Receiving Hospital he went home.

Offer to Buy Power.

(Continued From First Page.)

per annum \$500,000 per annum would be available for reduction of taxes. Respectfully submitted,

(Signed) SOUTHERN CALIFORNIA EDISON COMPANY, BY W. A. BRACKENRIDGE, Vice-President.

LOS ANGELES GAS AND ELECTRIC CORPORATION, BY WILLIAM BAURHYTE, Vice-President.

PACIFIC LIGHT AND POWER CORPORATION, BY G. G. WARD, Vice-President.

Three well-aimed bolts were thrown yesterday into the machine by which the invisible government, masquerading under the name of the people's power-bond committee, are attempting to ride the "jined" hot issues to approval by the voters under cover of a self-created fog of half-truths and branded quibbles. The power companies hurled bolt No. 1. Tired of the persistent accusation that their offer to purchase aqueduct power is for campaign purposes only, the three companies absolutely alienated their calculators by submitting a formal offer to the City Council to purchase all aqueduct power for a period of five years following the completion of the city's first power installation.

BY MULTILAND.

Bolt No. 2 was contributed by Chief Engineer Mulholland of the aqueduct. He stated flatly and finally that the aqueduct will be yielding a net annual revenue of \$2,000,000 within three and not to exceed four years, irrespective of whatever revenue may be obtained from the sale of power. This year's revenue is estimated at \$250,000, which will help some in lifting tax burdens.

BY STEPPENS.

City Attorney Stephens shied the third bolt by admitting that the verbiage ordinance through which the "gerrymandered" bond issues were submitted to the people was the same, with the exception of the interpolation of two words, as the ordinance under which bonds were voted in the former days of the power project. In other words, the City Council, in case the \$5,500,000 of bonds are voted, will not be compelled, under the law, to use the money for the completion of power plant No. 1 and the acquisition or construction of a distribution system, unless they wish so.

Because of the persistent insinuations of the bond proponents that the aqueduct investment is a tax burden that can only be eased by engaging in the generation and distribution of power, Mulholland's statement is big with interest. It follows:

THE FACTS.

Investment—Cost of aqueduct project, exclusive of power plants, \$24,500,000. Fernando dam and Francisco Canyon pipeline, \$2,250,000.

5 per cent. interest on one-half of aqueduct bonds during five-year period of construction, \$1,100,000. Total investment for construction and interest on the aqueduct and pipeline main to the city and Fernando reservoirs, 29,850,000.

5 per cent. interest for period estimated, two and one-half years, when revenue will not be sufficient to pay interest, 2,375,000. Total interest and construction charges up to point where the aqueduct should be sold, \$3,250,000.

Interest at 4 1/2 per cent., \$1,511,000. 3000 inches of water used at domestic rates, equal to 26,000,000 gallons per year, with a water rate of 5 cents per 1000 gallons, 1,300,000.

125,000 acres, supplied with approximately two feet in depth per acre, at 1 cent per hour-inch, or \$12.10 per acre, 1,512,500. Total annual revenue from sale of water, 2,108,000.

Operating expenses, 108,000. Net ultimate annual revenue from sale of water, 2,000,000.

This estimate not only does not include either the construction of the power plants or revenue to be derived therefrom, but makes no allowance for the value of surplus water rights, which the board of engineers estimated, in case the San Fernando Valley was irrigated, at 4000 inches.

WHAT IS IT FOR? The ordinance submitting the \$5,500,000 bond issues to the voters is the same, with a minor exception, as the one under which other power bonds were submitted, said Stephens. "The exception is that this ordinance contains the words, 'or aqueduct,' in addition to 'construction.' The ordinance was drawn by Mr. Robertson in this manner on the order of the City Council."

W. B. Matthews, late attorney for the aqueduct bureau and one of the organizers of the so-called people's power-bond committee, drew the ordinance which has been under discussion. Under the preceding ordinance the city was contemplating the acquisition of "land water rights and rights of way." Under the present ordinance the purpose is to complete a power plant and construct or acquire a distributing system.

STRONG ARGUMENT.

"BUSINESS MAN MAKES IT. The strongest argument against the bonds is the argument that the taking over by the public of enterprises which are best conducted as private business."

Speaking as the vice-president of the Aluminum Company of America, the world's largest user of electrical energy, Charles M. Hall of Niagara Falls, who is visiting at No. 403 South Orange Grove avenue, Pasadena, reviewed Los Angeles' power-bond situation yesterday from the standpoint of an outsider.

"It is the general rule," Hall continued, "that any business is better handled, with greater economy and greater profit to the community, if conducted by those who have their money invested and who depend on the success of the enterprise. If mistakes are made in the management of private enterprises those making the mistakes suffer. Under public ownership of the power plant the mistakes of management are the mistakes of the community, and the sense of personal responsibility is refined to the vanishing point."

"Personally, I believe that these warlike adventures invested capital are to have an effect for evil which few realize. A present effect of the unfavorable legislation the city is contemplating is the loss of the investments of public, as is seen in business depression and loss of employment for labor."

"Another result is that many investors are now seriously considering placing any new capital of which they become possessed in countries other than the United States. I even know one company, a company of large investments and an immense labor force, which is now negotiating with a view to transferring all its plants to a foreign country."

"Harris is the inventor of the electric process for making aluminum. The company of which he is vice-president has three plants at Niagara Falls, and

Chicken.

"THE TIMES" SCHOOL OF DOMESTIC SCIENCE.

LARGE and interested class came yesterday afternoon to see Mrs. Bertha Hafner-Ginger make chicken dumplings and other delicious dishes from chicken at The Times' School of Domestic Science.

Those dumplings were so good that the most timid little woman there screwed up her courage and asked for a second helping, and a dozen or more ladies followed suit, so that Mrs. Hafner-Ginger took pity on the whole class and gave us all more.

Of course those who attend the classes regularly know that one of the principal objects Mrs. Hafner-Ginger has in mind is to teach how to cook well in the shortest space of time. In those dumplings, for instance, she eliminated most everything in their making up that amateurs have always been taught to use. She only used the right quantity of flour, a little baking powder, a pinch of salt and enough water to mix to the desired consistency, and she had them mixed in a jiffy.

After the dumplings were done, she boiled a couple of chickens in the boiling liquid in which she had cooked the chicken, and in twelve minutes the chickens were ready to serve. First the chicken was piled in the center of two large platters, then came the delicious steaming hot dumplings and over both the gravy was poured; chopped parsley was added as a garnish and to give a little zest to the dish.

Other at Massena, N. Y., one at Shewanigan Falls, Quebec, and still another at Maryville, Tenn., as well as finishing plants in Chicago, St. Louis, St. Paul, Minneapolis, and other cities. Altogether, these plants use 175,000 horsepower of electrical energy in their operations.

THE TIMES-MIRROR COMPANY

Los Angeles Times
 EVERY MORNING IN THE YEAR.
 Daily, Sunday, Illustrated Weekly and Semi-Weekly. Class A, at the Standard Press, Limited, 1100 Broadway, New York, N. Y. 10036.
 Night, 10000.

LOS ANGELES (Loco Ahng-hay-lis)
 Entered at the Postoffice as second class matter of Class II.

TENDER SENTIMENT.
 Speak gently to your cow. Employees of a New Jersey dairy have been ordered to use no harsh language in addressing the cows on that farm. Unless the Wilson administration has changed the situation the New Jersey people have no profanity to waste on cows. They need it all for the mosquitoes and the Democratic party.

CRIME IN NEW YORK.
 One of the most brutal mental pestilence at one pole of their existence while blossoming into splendid achievement at the other. New York suffers bitterly at the hands of night assassins without conscience. Its reliable citizens should make the safety of their city as much their business as they would the building of a tunnel or the security of a water supply.

AN UNDESIRABLE POST.
 The public is reminded by the recall of Joaquin Casaus from Carlsbad to be the Minister of Foreign Affairs of Mexico that this official is considered next in line of succession to the Presidency. If Senor Casaus is reminded of this perhaps he will not come. It would appear to be the sort of greatness that few men would intentionally have thrust upon them.

PRESERVING FREEDOM.
 With Colorado finding it necessary to spend a million dollars on its militia, to call an extra session of its Legislature, and to consider the establishment of a permanent State constabulary, Southern California begins to realize her wisdom and good fortune in keeping the death clutch of the labor unions from her fair throat. When we see others enslaved we appreciate how good it is to be free.

PRIDE FROM THE STREET.
 Do you ever find in the city's crowded thoroughfares a tendency to make the murmur of many voices and the din of commerce into a hymn of thanksgiving? When you meet a cripple it seems such an undeserving miracle that your own limbs should be straight. When you look at faces pinched with pain it seems so strange that your own heart should be the abiding place of gladness and peace. When you see the tatters of the poor it is so unanswerable that you yourself should be comfortably clad. Perhaps men are never sensible of gratitude until they consider the misfortunes of others.

INTERPRETING A TERM.
 A Pasadena woman waiting for her final divorce decree admits her engagement to a Bohemian. This refers to membership in a club of that name and not to the term in its catholic sense. A few years ago the word implied a certain freedom and charm. It suggested an existence happily free from many material considerations and standards. People got hold of the idea in large numbers and worked it to death. They made it an excuse for converting life into a sort of series of high jinks. Nowadays a Bohemian would be a strictly conventional person, since a majority of people are off on a strike when it comes to what used to be conventionality.

THE PASSING SHOW.
 The grip and charm of the big spectacle at the Majestic this week, and it is like a multiplied "Candy Shop," is that the theatrical successes of a year pass in review while the audience appears to be marking time. It is as Robert Browning wrote: "The play is done, the curtain drops, 'Slow falling to the prompter's bell; A moment yet, since a majority of people are off on a strike when it comes to what used to be conventionality."

So beneath the light laughter of "The Passing Show" is the undertone of a lost chord. These plays gave their all of life and now they pass with a sort of contentment and cheerfulness into the void of the past. We mortals are less sensible, or is it that we are more sentient and responsible? We do not let our dead loves, our withered hopes or our unrealized ambitions pass so comfortably. They could not and we would not allow it. Out of the black waters of memory and remorse how many white arms reach up to us? Out of the night sea of the past how many faces, pale and pleading, fix us with reproach? Adown the dim corridors of yesteryear float now the echoes of how many voices in pain and questioning?

It is sometimes disputed that he wrote it, but no other seems to have so good a claim to a certain haunting poem as Henry Ward Beecher. It is entitled, "If I Should Die Tonight," and in it is this verse: "If I should die tonight, Even hearts estranged would turn once more to me."

Recalling other days remorsefully, The eye that chills me with averted glance Looked upon me as of yore, perchance, And soft in the old familiar way, For who could war with dumb, unconscious clay? So should I die forgiven of all tonight." One fact will strike many of us with great force in viewing a huge vanguard that includes burlesques on the successes of a year which is gone, and this is the difficulty of recalling the names and plots of plays which only a few weeks ago we found highly entertaining and instructive. It seems such a pity that we should enjoy in one hour and then forget a work that it required the flower of a life to create.

MEDIATION, NOT WAR.
 What the people of this country want is mediation, not war; and it would be the administration at Washington to talk at any phantoms or imaginary difficulties in the way. The idea that the submission of the matters at issue to arbitration would be a "quasi recognition of Huerta" is a puerile suggestion worthy of the belittled Department of State from which it is said to have sprung.

It is true that there are great and tangible obstacles to be met and overcome. For instance, as a correspondent of The Times today points out, the rebel chieftains, many of them, do not know what arbitration means, and if they should see a mediator coming down the pike they would be apt to mistake him for a rhino or something of that sort. How can you negotiate with illiterate brigands who know almost nothing about the laws of nations and care less about the etiquette of civilization?

But mediation is making some progress. It has been decided that the mediators shall hold their sessions at Niagara Falls in Canada. The friends of peace are working toward the ends of peace with great seriousness. The A.E.C. representatives are raising one point after another. The situation at Vera Cruz is tense, but not hopelessly ticklish. Cool-headed management will avert a clash.

There is nothing in the contention between the United States and Mexico which cannot be properly and safely left to arbitration. If any questions are to be raised as to what demands or concessions we may make, it will be time enough to raise them after the arbitrators have made their recommendations—when we can accept or reject as we may see fit. Objections are not now in order.

The pacification of Mexico and subjugation of its turbulent elements is a horse of another color. The Times does not believe that this herculean proposition can be disposed of without a concert of world powers. The great nations of Europe must step in with the Latin-American republics and the United States, and with aid of their armies and navies, set up a government for Mexico and keep it agitating for awhile.

THE INJUSTICE OF THE RECALL.
 We of the United States have long, and with justification, prided ourselves upon our justice, "fair play" and true sportsmanlike attitude for and toward all men and institutions. As a nation we have jealously stood for political and religious tolerance; it has been a point of honor that the two or more sides of every question should receive attention, and we have ever expressed the heartiest contempt for such unfair tactics as place a handicap upon a deserving citizen or extend to his antagonists an unwarranted advantage. On our playgrounds the youngest lad hastens to take the part of one who is beset by two or more boys. It is the American spirit of "fair play." We are proud of it; we should keep it intact forever.

But the recall has been foisted upon us by designing agitators, and it is attended by so many evils that we are confident few of its friends are thoroughly familiar with its character, with its inequities and with its rank, un-American injustice. It was hailed enthusiastically by so-called "reformers," the leaders of whom were merely political bosses working a new ruse to build up a following and gain power. It offers the opportunity to any small group who may be dissatisfied with any official to compel that official to conduct another campaign and again be elected to office. No one brings charges against an official who is to be recalled; no one stands out in the open and calls him to question. It is all cowardly, most of it surreptitious, and the people seldom know what agencies are secretly working to remove an official whom the voters have placed in office.

It is difficult to understand the purpose of this device permits the official who is being recalled to be opposed by numerous other candidates. As many as want to can run against him, and the official whom the citizens elected must get a majority of all the votes cast to retain his office. In political elections of all kinds, other than when conducted under the recall, the man who gets the largest number of votes is elected. But under the Los Angeles county recall the man in office must get more votes than the combined total of those opposing him. It is difficult to conceive of anything in politics outside of pure bribery and robbery, that is more disgraceful than placed on that such a handicap should be placed on any man, and especially on a man whom the citizens, as a whole, have already established in office for a designated period.

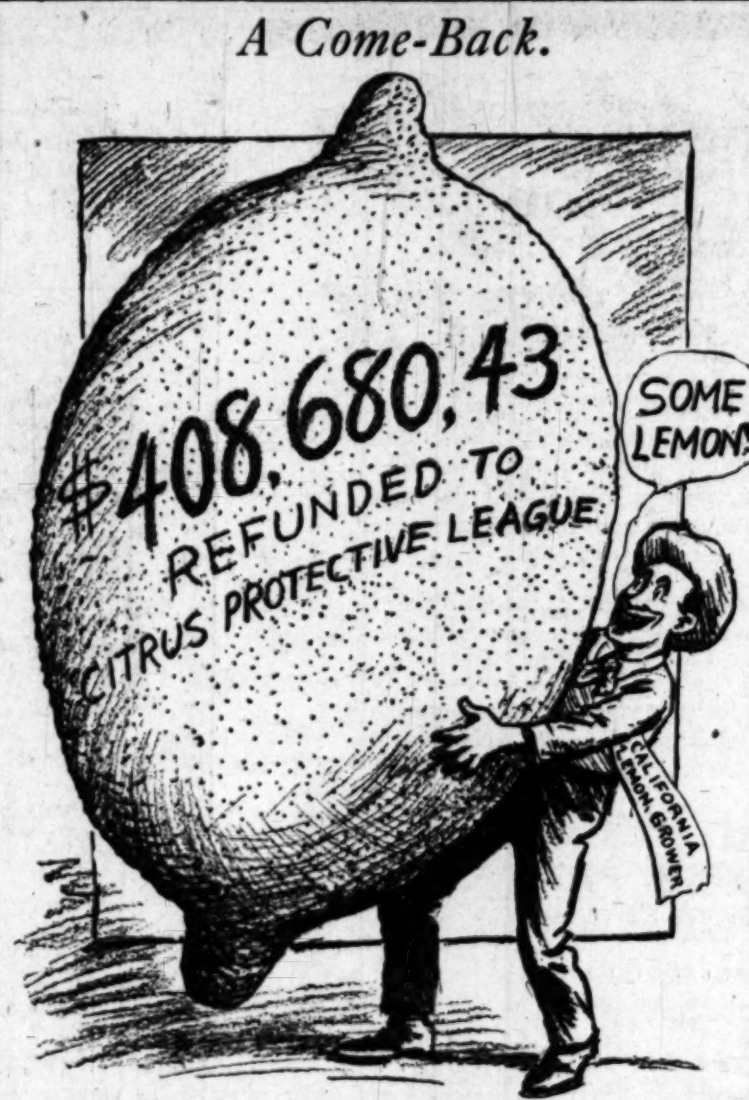

The recall would still be inequitable and unfair if it were required that the contesting candidate to be elected should get a plurality or even a majority. It is not right that those whom the citizens of a community place in office, shall for no valid reason, be compelled to conduct another campaign, bear other expenses and perform the duties of office to retain their positions.

If officials are guilty of such incompetence, dishonesty and negligence as to really warrant their recall they are likewise guilty of offenses serious enough to justify their impeachment. But in an impeachment some man must stand up and make charges; in a recall a number of men stand around with petitions and collect signatures. One is an honorable, manly, open and above-board procedure—the other is cowardly, contemptible and nefarious.

Again we call attention to the fact that at present there are five recall petitions being circulated in the city of Los Angeles against officials. All of the work is done in the dark, as secretly as possible, because those who are trying to recall the Mayor and certain members of the Board of Supervisors are afraid to come out openly.

It is impossible to hope that the citizens whom the people most desire to see in office will wish to enter politics when the recall menaces them—when in the hands of a small, unscrupulous faction it may be used to make an official campaign over and over to hold his office. The complaint is voiced on all sides that the recall men want to take political office cannot be persuaded to do so—and yet such an instrument as the recall is maintained to threaten office-holders and to frighten away men who might be public-spirited enough to sacrifice their personal wishes and business to take up the work of the community.

That an American public will tolerate this engine of spite, this instrument used to gratify personal and political revenge, is inconceivable. And yet it is tolerated. Election after election is called, adding ex-

pense upon expense to the taxpayers' budget; official after official has his office jeopardized and is unfairly compelled to fight to save himself from humiliation for no offense whatsoever, except that certain of his nameless enemies have bestirred themselves to make trouble for him.

In the case of the attempted, but unsuccessful recall of Supervisor Norton there have been circumstances which have not lessened the vicious character of the measure invoked against him, but which have lessened sympathy with his position. The recall is, in every instance, all that we have said of it. It is unfair, malicious, expensive and absolutely useless. But the fact that the recall exists in Los Angeles is partly due to activity on the part of Norton, who undertook upon himself the task of having it introduced. In facing the recall election he merely endured the consequences of his own efforts, and he deserved the defeat which the recall met in this case.

The Times is informed and believes that Supervisor Norton got many votes yesterday from citizens who took no stock in him, but wished to protest against the injustice of that great crime against fair play and political decency, the recall.

WE SHOULD VOTE DOWN THE POWER BONDS.

The proposed \$5,000,000 issue of power bonds should be voted down on Friday.

Because the taxpayers of Los Angeles are now paying for interest and sinking fund on the \$3,992,000 of city bonds outstanding—\$524 for each of the 303 business days of the year, a burden in itself much heavier than the taxpayers should be carrying in these times of business depression and anti-business legislation, existing and threatened.

Because the voting and issuance of the proposed \$5,000,000 bonds would increase that burden on the taxpayers to \$11,036 per business day, no matter how much more depressed business shall become than it is.

Because acceptance of either one of the companies' still standing two co-operative offers will give the city a cash income of \$1,000,000 a year, without any risk or worry, which income, plus the saving of \$1601 taxes per business day by not voting the bonds, will reduce the taxpayers' load from \$11,036 per business day to \$6894, a saving to them of \$4143 per business day.

Because it is now known, on the authority of the city's chief electrical engineer, E. F. Scattergood, from admissions made by him on April 8 to the directors of the Merchants' and Manufacturers' Association (which admissions differ in toto from the figures he has used in his speeches since that day in advocacy of the proposed \$5,000,000 bond issue)—It is now known, we say, that the \$5,000,000 would not be sufficient to accomplish the purposes for which the money is promised; that \$1,250,000 of the \$5,000,000 proposed issue will not be sufficient to complete power plant No. 1, but that \$2,000,000 is needed for that purpose; that the other \$3,250,000 of the \$5,000,000 will not be sufficient to give the city as good a system of electric distribution as it now enjoys, but that "four or five millions more" must be voted later to accomplish that most essential requirement.

Because the city's chief advocate of the proposed issue, Mr. Scattergood, who is responsible to the taxpayers for the excess of expenditure (\$1,250,000) over original estimates (his estimates) on the power plant, are in themselves good and sufficient reason why the taxpayers should not add to their tax burden \$455,000 a year for the proposed bonds, based only on estimates made by the same "estimator," which may, judging by his April 8 statements, turn out to be as utterly unreliable as have those on which we gave him in 1910, \$3,500,000 in response to his promise to give us in return a complete power plant and "something towards a distribution system." Remembering the old adage, "a burnt child dreads the fire," we must take heed and guard our somewhat lean pocketbooks by voting "No" on May 8.

Because, at this depressed and heavily-taxed time the building, buying or confiscation by condemnation of a distribution system is entirely unnecessary, even for the city to retail its own power; because the existing complete systems of the power companies can be leased by the city for five or more years in operation used at a charge to be fixed by the State Railroad Commission.

Because if, on the other hand, the people, if they had a chance to vote on the proposition, should prefer to sell at wholesale their aqueduct power to the companies (at a price to be fixed by the State Railroad Commission) the fixing of the retail price to be charged by the companies is entirely in the hands of the people's chosen representatives, the City Council.

Because either the sale of the power to the companies or the leasing by the city of the operated use of the companies' complete distributing systems for five years—practically co-operative for that period—will give time for the city to put itself in financial position to buy the system; and for the companies to place themselves in legal position to permit a transfer of ownership thereof.

Because if proceedings for confiscation by condemnation of the partial distributing system of the Edison Company (as programmed by the City Council) should be begun it would take years to put the fight through all the State courts and Federal courts, including the United States Supreme Court, with the chances favorable to the companies, judging by a recent decision of the latter court against the city of Los Angeles in the Economic Gas Company case. In the meantime the taxpayers would be paying \$455,000 a year interest and sinking fund on the \$5,000,000 from the day the bonds were sold.

Because, in the face of pending bond issues aggregating \$40,500,000, \$4,600,000 must, for the sake of our children, be voted for schools May 14, entailing an immediate tax increase of \$322,000 yearly, and the numerous special assessments which the taxpayers are bearing and facing for water mains, for storm protection, for sewers, for tunnels, for harbor and other special forms of taxation, we should, during this time of our rapid city growth, refuse to saddle upon ourselves unnecessary debts that must be paid in the future.

Because, above all other considerations, we who have to pay the bills are, by the intentional, improper wording of the ordinance governing this proposed power bond issue, disfranchised, in that the wording, forced upon us by our arbitrary City Council, deprives us of our right to the full and free expression of opinion and wish, which would be ours if the bonds were segregated. Much as we would like to have voted \$1,250,000, or even \$2,000,000, for the completion of the power plant, we cannot do so without, in the same vote, binding ourselves to the unnecessary expenditure of \$3,250,000 more, while the ordinance itself does not legally bind the City Council to expend \$1,250,000 or any part of the \$5,000,000 for such "completion," the word "completion" having been intentionally and illegally omitted from the ordinance and from all the legal notices of intention preceding the passage of the ordinance. Therefore, if we vote the \$5,000,000, we shall be entirely and helplessly at the mercy, as to method of its expenditure, of the City Council and Engineer Scattergood—who certainly has "scattered" quite enough millions for the taxpayers of Los Angeles.

Peacage for Governor-General.
 Sydney Charles Buxton, the newly-appointed Governor-General of the Union of South Africa, has been created a viscount by King George. He was formerly president of the British Board of Trade and at one time Postmaster-General, in which capacity he introduced two-cent postage for letters between the British Isles and the United States.

The new Viscount is an authority on the question of the relations between employer and workman, having participated in the settlement of many disputes. His experience in this connection is expected to be very useful to him in South Africa, where the labor problem is a very acute.

Free.
 [Judge:] Mr. Peach, before leaving town on a business trip, instructed his wife's nurse to apprise him of the arrival of the stork. She obliged with the following telegram: "Mrs. Peach has a pair."

"ME" AND FREEDOM.

BY ALMA WHITAKER.

Of course we all simply must be free. Every book one takes up nowadays is permeated with this cry for freedom in some form or another. The labor unions are loud in their cry for freedom; so are the I.W.W.'s; so are the Socialists, and so are the women.

Mexico, Ireland, Poland, Finland, China and India—all are prepared to wallow in blood and are dreadfully uncomfortable for the pure, unadulterated love of freedom. Portugal has had an orgy of freedom-seeking and all her previous regime are in prison or fled the country.

The cruel despots who hold us in relentless shackles are kings, trusts, millionaires, non-unions and men. The Socialists hate the first three, including republics in France and America. The unions hate the last four—and women can't abide the last. That is, in bulk. Individually we are all prepared to make an occasional exception.

But very, very few know what to do with freedom when they have gotten it. The first thing most of us do is to hunt for new shackles. Even widowers, who are supposed to know what slavery means in its unkindest form, generally hasten to seek out a new taskmaster. The only sort of freedom most of us really want is freedom to choose our boss and amuse ourselves by putting his bossing abilities to some pretty severe tests.

We love to break our shackles, but, oh, it's horrible not to have any shackles to break!

Galaworthy's latest book, "The Fugitive," is much discussed. It's all about a poor woman-slave yearning for self-expression, self-development. It is one of the books in which she kisses the babies and sticks a note on the pin cushion to explain to hubby that she has gone forth into the world to find freedom and self-expression, only she hasn't any babies in this particular instance. Galaworthy is so modern.

Hubby was quite a decent sort of chap, but a bit stupid, as husbands often are. She married him without compulsion and thought him rather nice, but she is very cultured, very delicately nurtured, very personative, poor girl, and he is rather strong on family respectability, which is a dreadful handicap to self-expression, self-development. So she leaves him.

She proves quite as much of a failure as a business woman as a mistress, as she did as a wife, and Galaworthy's sympathies are understood to be very much on her side. But what his play really shows is the grand futility of freedom. She was a discontented, spoiled darling as a wife, a spoiled, but, oh, she was lonesome and utterly desolate when she was gloriously free.

Galaworthy's play is regarded as a plea for the full emancipation of woman. But practical women—the ones that are the backbone of the feminist movement—are busy repudiating the gentleman. Masculine sympathizers have a way of advancing the protection idea—give 'em all they want and protect them from the consequences.

But deep in our consciousness, women know very well that freedom is only worth having in the abstract. Most of us wanted to shake his precious fugitive. She would have been so much happier had she stayed at home and done her whole duty, with the proper attitude of sweet, forbearing angelic martyrdom. She could have evolved all the self-expression, self-development, necessary and retained her high ideal of freedom without any disillusion.

To talk freedom is inspiring, ennobling, lofty. To get it is to lose all ambition, all hope. Fortunately few of us ever get it. Our heaven-born instinct is to ever get ourselves with new shackles with extraordinary promptitude—just like the star fugitive and find them uglier and more uncomfortable than the ones we have shed.

A merciful Providence has seen to it that we love our shackles, and the vast majority of us are consequently successful as slaves. We know it. For which reason, directly we have secured the glorious freedom of the vote, we omit to register, omit to go to the polls. And those of us who do exercise our free vote do so with a profound sense of its exacting possibilities. We become a positive slave to it and vote and register, register and vote every few weeks, until we moan miserably under the cruel burden and pose as martyrs to a great duty. Unless we can conscientiously turn that free vote into a tyrannical duty, we ignore it altogether.

This trend of mind is not peculiar to women. Not by any means. Whole nations under masculine government suffer from these self-same weaknesses. Every great empire has had its wild yearnings for freedom; and just so soon as it was gained, freedom brought them nothing but sorrow, nothing but repentance, nothing but dissolution.

If these United States were really "free" they would have gone to the dogs long ago. Fortunately democracy has indignantly hemmed itself in with bosses and the world is wont to smile at American freedom. There is much, much more real freedom in France and England—and France and England are on the down-grade, torn with strife and disillusion.

Freedom as an unattainable star in the heavens is a glorious ideal to worship. Freedom on earth and in our midst is a devastating factor of destruction.

That's why sport and work and matrimony are still the happiest things in the world. There are exacting rules, and an exacting boss in each of them and our greatest happiness and our greatest success is in obeying them implicitly.

There is so much more genuine satisfaction in being a competent and successful slave with high ideals than in being a free failure, with our ideals busted.

DOUGHNUTS

WALT MARSH IN THE TIMES.

I seek the high-class eating joint when my old stomach gives a wrench, and there the waiters proudly point to bills of fare got up in French. I order this, and order that, in eagerness my face to feed, and oftentimes I break a slat pronouncing words I cannot read. And as I eat the costly greens, prepared by an imported cook, for other times and other scenes with reminiscence eyes I look. My mother never was in France, no foreign jargon did she speak, but how I used to sing and dance when she made doughnuts once a week! Oh, they were crisp and brown and sweet, and they were luscious and sublime, and I could stand around and eat a half a bushel at a time. The doughnuts that our mothers made! They were the goods, they were the stuff; we used to eat them with a spade and simply couldn't get enough. And when I find imported grub, all loaded down with Choctaw names, I sigh and wish I had a tub of doughnuts made by old-time dames. I do not care for fancy frills, but when the doughnut dish appears I kick my hind feet over the thills, and whoop for joy, and wag my ears.

[Judge:] Mr. Peach, before leaving town on a business trip, instructed his wife's nurse to apprise him of the arrival of the stork. She obliged with the following telegram: "Mrs. Peach has a pair."

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

Pen Points: By the

LETTERS TO "THE TIMES."

We are still "agin" the recall.

Another election Friday—and an election day. They are still rocking the boat in Mexico.

Watchful wording is now the order of the day in Washington.

Hit the \$5,000,000 power bond issue and hit it hard!

The A. B. and C. powers might take a little in the Ulster situation.

Those fashion "daily hats" are certainly a boost for the economy.

Good morning, have you read the book to the McAdoo-Wilson wedding? What a masterpiece!

In a straight-out election, with a call about it, Norton will be elected out.

A typewriter that will go in your advertisement. At that, she has a friend wife.

Another date in the American Pantheon, May 10, when the Panama Canal was opened to traffic.

That man you see in the distance patting himself on the back is the Portofino Diaz.

Another "old master" has been made \$100,000. What marvelous industry "old masters" had!

A picture informing the public that Carranza and Villa are coming to the would be appreciated.

In the California gubernatorial election Democrats have evidently made up their minds to let Fred Hall do it.

The Democrats in Congress are appointing of any more new laws, Democrats to the last.

With Richard Harding Davis and Creelman on the job below the Republic something ought to happen pretty soon.

Don't understand why the Republic should have attacked the Vera Cruz works. Now if it had been the property!

A national funeral for Polanco, Carranza and Schumacher, killed in the attack on Vera Cruz, is proposed. They are all dead.

California is always willing to be even to furnishing oil for the English and provided the proper financial arrangement is made.

Senor Zapata says that Mexico to the United States any time it wants to war. Why doesn't Zapata get a water wagon?

Now is the time to bring out the ultimatum and dust them off for my country. They will be needed before the purpuraries are over.

Justification for fortifying the Panama Canal is found in the promptness with which business over the Tehuantepec Railroad has been suspended by the Mexican war.

Weddings in the President's family have lost their novelty, and Miss Eleanor has here in the Blue Room instead of large East Room. But then Cleveland married in the Blue Room.

The Panama Canal will be opened to the controversy over the toll rate is a move on.

The worst enemies the American encounter in Mexico will be made fever, but the army medical board stands how to handle such things now than ever before.

There are too many things before us now to allow consideration of treaty with Colombia. Possibly the administration may be glad for the treaty quietly laid away without any bad consequences.

Dr. Cook has one friend in the Polindexter—who would have a struck commemorating the doctor's memory of the North Pole. Now, how did Polindexter discover that Cook discovered a thing but a winter in the Arctic region?

The Oregon Railroad Commission ordered the rival telephone companies to State to interchange service. Here's for the California commission, and the thing might be an order to conduct a thing with the nuisance of two companies.

HATS OFF; THE FLAG GOES BY.
 Hats off; along the street draw a blare of bugles, a ruff of drums. A flash of color beneath the sky. Hats off; the flag goes by.

Blue and crimson and white it came. Over the steel-tipped orders of the army were the colors before us. But more than the flag is passing by.

Sea fights, land fights grime and foam. Fought to make and give the foam. Weary marches, sinking ships and dead. Cheers of victory on dying lips.

Sign of a nation great and strong. The guard of people from foreign wrong. A mailed hand at the treaty's end. The flag o'er Cuba's soil shall stand.

The flag of Dewey, Sampson, and Schley. The men who fought and died, and they. A flash of color beneath the sky. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

From all the land a sound: there came a blare, blare and ruff of drums. The tread of mighty hosts drew near. Hats off; the flag goes by.

Pen Points: By the Staff

We are still "agin" the recall.

Another election Friday—and so it goes. They are still rocking the boat down here.

Watchful wording is now the thing in Washington.

Hit the \$6,500,000 power bond project and hit it hard!

The A. B. and C. powers might take a lesson in the Ulster situation.

Those fashion "daily hints from Paris" are certainly a boost for the optician.

Good morning, have you received a card to the McAdoo-Wilson wedding? What?

In a straight-out election, with no talk about it, Norton will go down.

A typewriter that will go in your pocket is advertised. At that, she has nothing to friend wife.

Another date in the American Hall of fame, May 10, when the Panama Canal opens to traffic.

That man you see in the distance who is sitting himself on the back is the aspirant Diaz.

Another "old master" has been sold for \$100,000. What marvelous industry the old masters had!

A picture informing the public where the aransas and Villa are coming or going could be appreciated.

In the California gubernatorial game the democrats have evidently made up their minds to let Fred Hall do it.

The Democrats in Congress are opposing the appointment of any more naval officers. Democratic to the last.

With Richard Harding Davis and the "pulpman" on the job, how the Rio Grande something ought to happen pretty quick.

Don't understand why the Mexicans should have attacked the Vera Cruz warships. Now if it had been the pulque war!

A national funeral for Poinsett, Hagood and Schumacher, killed in the attack on Vera Cruz, is proposed. They are heroes.

California is always willing to oblige even to furnishing oil for the English navy, provided the proper financial arrangements are made.

Senor Zapata says that Mexico can be a United States any time it wants to be war. Why doesn't Zapata get on a motor wagon?

Now is the time to bring out the explosives and dust them off for early use. They will be needed before the Mexican warblers are over.

Justification for fortifying the Panama Canal is found in the promptness with which the Tehuantepec Railroad was suspended by the Mexican war.

Weddings in the President's family have been in the Blue Room instead of the large East Room. But then Cleveland married in the Blue Room.

The Panama Canal will be opened before controversy over the toll rates is moved, unless the Democratic Congress moves on.

The worst enemies the Americans have in Mexico will be malaria and fever, but the army medical board understands how to handle such things better than ever before.

There are too many things before the new treaty with Colombia. Possibly the administration may be glad for the treaty to be laid away without any hand movements.

Dr. Cook has one friend in the Senate, the index—what would have been a good luck commiserating the doctor's discovery of the North Pole. Now, how did he discover that Cook discovered a winter in the Arctic region?

The Oregon Railroad Commission has ordered the rival telephone companies to make an interchange service. Here's a suggestion to the California commission, and the Oregon might be an order to consolidate away with the nuisance of two telephone companies.

HATS OFF; THE FLAG GOES BY. Hats off; along the street there comes a blare of bugles, a ruff of drums, a flash of color beneath the sky.

Hats off; the flag goes by. Hats off; along the street there comes a blare of bugles, a ruff of drums, a flash of color beneath the sky.

Hats off; the flag goes by. Hats off; along the street there comes a blare of bugles, a ruff of drums, a flash of color beneath the sky.

Hats off; the flag goes by. Hats off; along the street there comes a blare of bugles, a ruff of drums, a flash of color beneath the sky.

Hats off; the flag goes by. Hats off; along the street there comes a blare of bugles, a ruff of drums, a flash of color beneath the sky.

Hats off; the flag goes by. Hats off; along the street there comes a blare of bugles, a ruff of drums, a flash of color beneath the sky.

Hats off; the flag goes by. Hats off; along the street there comes a blare of bugles, a ruff of drums, a flash of color beneath the sky.

Hats off; the flag goes by. Hats off; along the street there comes a blare of bugles, a ruff of drums, a flash of color beneath the sky.

Harris & Frank 437-443 SOUTH SPRING ST.

Federal Mexican officers were captured and confined in Ft. Rosecrans by the United States authorities, two of them broke their paroles and returned to Mexico. Huerta, hearing of this, had them arrested and returned to Ft. Rosecrans. In all his dealings, Huerta has been civilized and kept the courts in operation, administrators not only justice but the ordinary processes of civil government, the sanitary and educational organizations and the like.

The fourth proposition of President Wilson was the most laughable of all. It was: The agreement of all parties to abide by the results of the election and co-operate in the most loyal way in organizing and supporting the new administration. Even if we grant let us complete the work of the government at a cost of \$1,000,000, we can not complete the work of the government at a cost of \$1,000,000. Even if we grant let us complete the work of the government at a cost of \$1,000,000, we can not complete the work of the government at a cost of \$1,000,000.

Cooler Dry Goods Co. FOUNDED 1878

New Arrivals of All-Black Hats Here

To meet a distinct and very decided vogue for all-black in summer hats we have just placed in stock new arrivals of the most charming styles money can buy:

"Ruban Lacque"
—the new waxed polish ribbon, is much used in the trimming of these hats—smart Lisere, Milan and hemp braids, in new sailor, bandeau and Watteau or Leghorn shapes are favorites; combinations of waxed ribbon and drenched ostrich or nummie are extremely stylish. You should see these, if at all interested in an all-black hat.

Midsummer Models
—in flowered lace and net hats, are here, too, for your approval.
(Millinery: Main Floor)

Save on Dresses for Street Wear

The majority of women who come in to look over our assortments of summer dresses, remark that it seems time wasted to have them made at home, when they are buyable so reasonably, all ready to wear. A special sale now—

Moire Bags \$4.85
The latest novelties in silk, moire (plain and flowered) and leather bags—with handles of silk, fitted with mirror and little coin purse; nickle or gilt mountings; odd shapes; some combinations of two shades of moire; these bags were \$6 to \$8.50; we reduce them to \$4.85 (Neckwear: Main Floor)

Dainty Crepes de Chine, Etc.
—tulle in plain or changeable effects; moire in green, taupe, black, rose, peacock, brown; styles in all the popular drape and tunic or bustle models; kimono low-line sleeves, garments neatly lace trimmed; they have been selling at \$22.50 to \$52.50 each; we offer them now at \$16.75 to \$39.25 (Garments: Second Floor)

Odd Lines of Ypsilanti Union Suits Reduced

Women who are in the habit of wearing this celebrated brand of J. B. Colman Ypsilanti garments will be glad to secure them at a reduction—Flesh colored (only) union suits, in lisle or silk, odd sizes only; various styles; were \$7.50, now \$5.50; were \$10, now \$7.50. Boys' Balbriggan Shirts and Drawers—odd lines; were 25c, now 15c—the 50c quality now 25c (Knitwear: South Alley)

PARRINES—Corsets of Unusual Comfort

So many of our customers to whom we have fitted Parrine Corsets tell us that they are unusually comfortable, that we are sure many of you who are in search of a corset that shall fit easily and gracefully will be glad to know of the Parrine: Every New Model—shown in brocade, coutil, audeine—three of the most popular summer materials; also a splendid elastic corset in this make, at \$5 to \$20.

French Hand-Embroidered Lingerie Sets

Only one drawback to this sale—the quantity is limited, so you will do well to be prompt for these high-class garments at special prices:

WESTON'S "VITE" TO TRY TO BEAT DEFENDER "ALERT"

First Race of the Season to Be Held Sunday Between Long Beach and San Pedro and Much Excitement Is Caused by the Appearance of the New Boat—Stag

BY E. D. SEWARD.
Secretary of South Coast Yacht Club.

The first race of the season will be held next Sunday between an L course of four boats between San Pedro and Long Beach. The race will be the first of a series of races which will drive the boats to their best efforts. The boats will be the "Vite" and "Alert" and two other boats. The "Vite" is a new boat and is expected to be a contender for the title. The "Alert" is a veteran boat and is expected to be a strong contender. The race will be held on the Long Beach and San Pedro course and will be a very exciting event.

As to the main event and has intimated that he means business this year and will be a leader in the race as well as in the other club affairs. Although badly handicapped under the universal rule of measurement, Capt. A. G. Sepulveda says he will bend every effort to have the Columbine, a sure winner under the Boston Bay measurements, in commission and on the job on Sunday. Charles E. F. Fanning, who will sail the "Vite", is a veteran sailor and is expected to be a strong contender. He is a member of the South Coast Yacht Club and has won several races in the past. The "Vite" is a new boat and is expected to be a contender for the title. The "Alert" is a veteran boat and is expected to be a strong contender. The race will be held on the Long Beach and San Pedro course and will be a very exciting event.

ATE PROVIDES MONEY FOR OUTDOOR EXHIBIT.

W. F. WATKINS, assistant State Game and Fish Commissioner, announced yesterday that the State Board of Control had appropriated \$100,000 for the purpose of providing an outdoor exhibit of the game and fish resources of the State. The exhibit will be held at the State Game and Fish Commission and will be a very exciting event. The exhibit will be held at the State Game and Fish Commission and will be a very exciting event. The exhibit will be held at the State Game and Fish Commission and will be a very exciting event.

WASHINGTON WILL SEND A TEAM EAST.

SEATTLE (Wash.) May 5.—Hiram R. Conibear, director of athletics at the University of Washington, began tonight sending the varsity eight-oar crew over the four-mile course on Lake Washington in preparation for the intercollegiate regatta at Poughkeepsie next month. "I'm laying on all the work the men can conveniently handle," said Conibear tonight. "To try to get in 20 minutes row every night and two or three times a week will take them over the four-mile course. I'll ease up a trifle for the last spurt of training before the eastern race. Twenty men are eligible for the Poughkeepsie trip and from these eleven will be chosen to go east. Harvard's new gymnasium, for which money is now being raised, will be seven stories high and will include two quarter-mile running tracks, swimming tank, skating rink, shooting ranges, boxing gymnasium, rooms for wrestling, boxing, fencing and punching the bag, also lockers and showers on all the floors.

CAPTAIN IS DISPLACED.

NEW HAVEN (Ct.) May 5.—Yale's varsity eight-oar crew today defeated the second boat in a two-mile brush by a length and a half. After the second boat had beaten the varsity on two previous occasions, Capt. Deming was relegated to the second crew, where he rowed today. As the varsity won, it is believed the captain will have hard work to regain his old seat in the first shell. Appleton, former stroke of the second boat, stroked well for the varsity today.

Tigers Beat Oaks.

(Continued From First Page.)

After Alexander had dropped a foul fly on Bayless, Dickie poked a home run that sent Leard the rounds.

OAKS SCORE.

Two of the seven walks issued by Mitt came in the last of the same inning and gave the Oaks a run. With Quisenberry down, Middleton walked. Zacher fanned and Hedlin walked. McGarvie fumbled on a grounder to short by Ness and Middleton scored. Carls also proceeded to boot the ball. Carls, however, recovered in time to throw Melton out at third.

Melton put the ball over the right field fence in the third inning.

Leard opened the eighth inning with a single to right. Alexander followed with a single to left. The eighth inning was a walk-off for the Oaks.

On whom so much depended with two down, forced Ness at third.

In the eighth the commuters started with a walk for Middleton and a single for Zacher, but Middleton was forced at short and Alexander to third.

The score:

WEDNESDAY MORNING.

WOMEN'S WORK. WOMEN'S CLUBS.

BY SYDNEY FORD.

The "Women's Work" of the public protest by the members of the Friday Morning Club, against the resolution favoring the war, it is a little surprising to find, at the least, to note that the women, Mrs. Russell J. Waters, who has been a published statement of her own signature and date.

The Friday Morning Club, of which Mrs. Waters is president, already has a record as favoring them.

Mrs. Waters presumes to speak for the women, many of whom have been and emphatically declared that they are not in favor of the war, and that they are not in favor of the resolution favoring the war.

The subject of the war is so serious, that the facts about it should be found more than interesting to men and women.

AN INTIMATE RICHEST MAN IN THE WORLD.

Rockefeller—but the man him the public know of him? Prudent points out, in giving his estimated man in the world today, study, just truths gathered from a man greatly misunderstood. One has been granted.

F. GRAUSTARK.

Story. Illustrations by R. F. Schabert.

Found his Golden Girl, not dreamed of finding her, but in permeating throughout the entangling dialogue which are and captivating romance.

HE FAMOUS.

Kelly.

Men prominent in public life, have a literary battle in seeking the date.

CRINKLES.

Men tried out with success.

WITCH HAZEL FOR THE TOILET.

When fatigued

Bathe the face with water containing a little witch hazel.

THE use of witch hazel dates back to the days of the Indians, preceding colonial days. They believed it imbued with a good spirit, and employed its bark and leaves in many ways as a medication for their ailments. From the crude preparation that the Indians used, made by steeping the witch hazel leaves, twigs and bark in water, to the beautiful extract of today, is not such a long step, after all. The difference is more easily found in the universal use of the product and the dependence modern man puts into it to relieve his aches and pains.

Witch hazel is not only a sovereign remedial agent but it also has an important place upon madame's dressing table, and a more worthy adjunct could not be found; in fact, it becomes a necessity.

And by the way! Have you ever noticed how soon a luxury becomes a necessity?

Witch hazel has a distinct value as a toilet application for face, hands, arms and body. After the bath, after

and friends will be given tomorrow afternoon from 2 to 5 o'clock. A business meeting will be held this evening at 8 o'clock.

Clubwoman, is your opportunity to visit the home of this splendid body of young women, who have so dignified their avocation of domestic service and have, within the short space of a few months built up an enthusiastic membership of over 500. The girls have been putting in some busy days getting their new clubhouse in shape and we are all interested to see it, and to meet face to face, these fine young women.

BORE HOLDS DIFFICULTIES.

Engineer Points Out Complication of Damage Claims in Answer to Request for Speed.

Referring to the petition of the First-street Tunnel Association that the city immediately commence proceedings for one bore of the proposed double-bore tunnel in West First street, the City Engineer yesterday reported to the Council that if this were undertaken some difficulties not considered by the petitioners would arise.

He states that at the ends of the tunnel it would be necessary to dig down half the width of First street, between Broadway and Hill street and between Figueroa street and Fremont avenue. In order to hold up the other half of the street, a retaining wall down the center of the street would be required and this would have to be removed as soon as the other bore was constructed.

He also pointed out that when the first half of the street was excavated the damages to owners fronting on the excavation would have to be paid and the owners on the high side would present claims due to crowding the street railway tracks over to the curb line and narrowing of the street. Later, when the remainder of the street was lowered, additional damage claims would be filed and this would complicate the damage situation.

We have on file a number of preliminary maps and sketches of various tunnel schemes for the First-street tunnel, but because as yet no particular scheme has been settled upon, no detailed plans, known as working drawings, have been made," says the Engineer. "The work of making the preliminary maps and sketches is a very small fraction of the labor of preparing complete working plans."

WIFE SEARCHES FOR LOST MAN.

ILLNESS OF RAILWAY CLERK BAR TO ANXIOUS HUNT.

Former Stockman, After Reading Spouse Alone to Prayer Meeting, Disappears and Takes Bulk of Bank Account—Life Partner Watches Street Crows.

The wife of J. A. Shelton, No. 1304 1/2 Crown Hill avenue, wondered why he insisted that she go alone to prayer meeting last Wednesday night. When she returned home and found Shelton gone, with all his best clothes, she thought she understood. Next day, she found he had drawn from the bank nearly all of a substantial account, leaving but \$300. She thinks his disappearance, the result of a nervous breakdown four years ago.

Though the police have been notified of the disappearance and are running down a lead that points them to Larapour, Colo., the most anxious and persistent search is being made by Mrs. Shelton, who daily walks the streets of the business district, hoping to encounter her husband, and haunts the public library, where he often went to read. Nothing has rewarded the anxious, heartbroken hunt.

A strange fatality thwarts the following of the one substantial lead. In a hospital, suffering from appendicitis and ready to go under the surgeon's knife, is a railway clerk who sold two tickets believed to have been bought by Shelton. The clerk is in the condition that he cannot be questioned.

Wednesday night a man giving his name as Ben Shelton purchased two tickets and a reservation on the Santa Fe for the Colorado town. It is the theory of Mrs. Shelton that this possibly was her husband, and that he left while mentally unbalanced as a result of his nervous trouble. She believes he bought a second ticket under the impression she was to accompany him.

The Shelton who used the tickets has not been found.

Besides his clothes Shelton took with him a small watch, the property of his wife, that he admired greatly and often borrowed from her. The Sheltons have lived in this city about a year and a half. They formerly lived in Kansas City, where Shelton was in the stock business. The missing man is 48 years old, 5ft. 7in. tall, and weighs about 150 pounds. He has a medium complexion, gray eyes and brown hair streaked with gray and very thin. He is clean shaven and has one gold tooth in front. When he left he was supposed to have worn a gray suit with a small stripe, light gray hat and black shoes.

WITCH HAZEL LOTION.

Distilled with hazel—Four ounces. Boric acid—One dram.

Apply this lotion twice a day with a small sponge.

The second formula is a tonic for oily hair. Here it is:

RESCORIN TONIC.

Rescorin—Fifty grains. Witch hazel—Two ounces. Distilled water—One ounce. Alcohol—Two ounces.

Apply at night, massaging it thoroughly into the scalp.

BUYS MORENO DAM.

San Diego Votes Bonds to Purchase Water System of the Spreckels Company.

[LOCAL CORRESPONDENCE.]

SAN DIEGO, May 5.—The city today voted for a bond issue of \$1,000,000 for the purchase of the Moreno dam and water system of the Spreckels Company. The bonds carried by the overwhelming vote of 10,189 for and 1569 against.

The fact that John D. Spreckels had promised to use the money acquired through the sale of the dam to sell the railroad bond issue of \$1,000,000 for the purchase of the Moreno dam and water system of the Spreckels Company, was the issue on which the campaign for the water bonds was made.

Spreckels had agreed to rush the work on the road to that end. The vote was the heaviest ever polled on a bond election here.

TO OPEN BOULEVARD.

[LOCAL CORRESPONDENCE.]

SAN PEDRO, May 5.—The Pacific-avenue boulevard, toward the paving of which \$40,000 from the harbor bonds voted by Los Angeles was contributed, will be opened into San Pedro tomorrow night with laying of the last of the granite blocks at the top of the hill at the northern end of the street. From where it joins the Wilmington-San Pedro road to Olive street granite blocks were required on account of the grade. From Olive street to Seventh street leading into the business section the asphalt paving has been completed. There still remains one block of paving to be completed between Ninth and Tenth streets.

FOR CITY BEAUTIFUL.

[LOCAL CORRESPONDENCE.]

WHITTIER, May 5.—Another step in the campaign for a city beautiful was taken by the City Trustees last evening when they created the office of park superintendent and appointed Dr. G. H. Flinders to the newly-created position.

ROUND-HEADED CALF.

[LOCAL CORRESPONDENCE.]

TULARE, May 5.—A calf born at the Charles Blais ranch, near here, has an almost spherical head and is provided with two noses. Between the two noses, which are perfectly formed, the calf is said to be exceptionally vigorous and is making a fine growth.

ELOPEES SPEED TO JAIL.

Youth and Girl, Both on Probation, Arrested for Scorching in Machine Police Think Stolen.

Louise Turner, of many adventures in police records, is again in custody, and with her James McFarland, the young man who was recently arrested for having operated a system of thievery in outlying towns.

This time they were caught as they came through Oxnard at a speed of fifty miles an hour in a machine that is believed to have been stolen. It happened that James McNamara, of the Detective Bureau at Central Police Station was present when the couple, accompanied by Earl Jennings and Emma Delaney, were taken to the police station there, and identified them.

They said that they were eloping, but the police discredit their story. McFarland is now on probation from a four-year sentence for having stolen a grove, and the girl is paroled from Whittier. She attempted to commit suicide in the City Jail when held there recently on a charge of being delinquent.

It is probable that the couple will be forced to serve in jail the suspended terms.

FOR CITY BEAUTIFUL.

[LOCAL CORRESPONDENCE.]

WHITTIER, May 5.—Another step in the campaign for a city beautiful was taken by the City Trustees last evening when they created the office of park superintendent and appointed Dr. G. H. Flinders to the newly-created position.

This Tells the Story

EILERS QUILTS

Big Los Angeles Music Store to Cease Activities Here at Early Date.

Within a short time the Eilers Music Store, at 344 S. Broadway, this city, will be no more.

Business necessities make it imperative that the proprietor, Mr. A. H. Eilers, returns to Oregon, as soon as he can close up his affairs here.

As a result, he is putting on the market at actual wholesale cost, and less, hundred of the most world-famous pianos. There are new and slightly used instruments. There are Player Pianos, Grand Pianos and Uprights. It is surprising what a wonderful selection can be obtained there.

There is probably no establishment in the country which commands as many makes of pianos as Eilers. On their big floors now, you may see used Steinways, Webbers, Haefflens, Knabes, Ivers & Ponds, Chickering and dozens of other new pianos.

During the sale new pianos will be sold for as little as \$95, \$115 and \$125. Old styles, \$35 and \$50.

Eilers isn't asking for cash payments, but he must turn every single piano into money or negotiable paper without delay.

Pay a little every month, but get your piano now! EILERS MUSIC HOUSE, 344 S. Broadway.

WHO RODE WITH DRUNK DRIVER?

POLICE AGENT DID, BUT DENIES WOMEN WERE THERE.

Following Crash Between Taxicab and Vegetable Wagon of Japanese, Officer Tells One Story and Four Witnesses Another—Driver Sent to Jail, Japanese to Hospital.

Calamity came yesterday when Thomas Hyman, a chauffeur, driving a taxicab filled with women, crashed into a vegetable wagon driven by S. Sagaguchi at Washington street and Ninth avenue. Already Hyman is behind the bars in the City Jail, serving a term of fifty days because drunk while operating the taxicab.

The two women were led from the scene of the collision, both bleeding profusely, but frightened into silence regarding their identity.

With Hyman at the time of the accident was Fred Donovan, a special agent employed by the Chief of Police. He denies that there were women in the machine, his testimony contradicting that of four witnesses.

The taxicab, owned by Mrs. J. D. Kauffman, who operates a rent station at No. 541 South Broadway, was wrecked in the crash.

Sagaguchi was thrown from his seat under the feet of the horses. Unconscious and bleeding from many wounds, he was taken to the Receiving Hospital for treatment.

COSTLY ORANGES.

[LOCAL CORRESPONDENCE.]

WHITTIER, May 5.—Carmina Petrella, an Italian, was fined \$50 by Judge Taylor for stealing several boxes of oranges from the grove of William K. Green yesterday.

Additional Copies

of the war map in today's Times, printed on good map paper, not to be obtained at the Times Building, First and Broadway, The Times Branch Office, 615 South Spring and 114 South Broadway, from postpaid, 10 cents.

LET US PLACE A FINE PLAYER PIANO IN YOUR HOME

On Practically Your Own Terms of Payment

No outside conditions can be allowed to interfere with this great sale. These pianos must ALL be sold without any loss of time whatsoever. The Oregon office needs me, and I must go there. The flying trips that I have made are not at all satisfactory. I must go back there permanently, and so that I may do so at once I am selling hundreds of pianos for far less than usual factory prices. If you ever expect to own a good piano, select it now. Pay for it on the terms that most appeal to you.

Our Permanent Guarantee

Remember, every piano sold in this sale or heretofore is unconditionally guaranteed. The instrument, no matter what price, must give satisfaction or no sale. We have outstanding in Los Angeles county alone hundreds of thousands of dollars due from satisfied purchasers of our pianos. To make these collections will take a couple of years and one of our most trusted employees will be in charge of this work in some downtown office, which will be financed later, and every agreement or promise or guarantee made by us or our representative will be carried out to the letter by him.

EILERS MUSIC HOUSE

Per A. H. EILERS, Treasurer.

Any Instrument on Any Terms

The world's most beautiful instruments, new and used, including the famous Bush & Gerts, Decker, Hazeltan, Kimball, Kimball-Acmeloid, Smith & Barnes, Steger, the famous Bungalow Player Pianos, and also the best of all the fine ones, the Player Piano de Luxe, and scores of other well-known makes are here. And I'm compelled to sell out for whatever price I can get.

You don't need to pay all cash. I'll take as little as \$1.00 a week on any number of these pianos. You can take your choice from dozens of the most beautiful brand new Player Pianos for \$15 a month. Almost any terms will buy a piano now.

I'm Going back to Oregon

The Charm of Harmonious Background!

FANTASTIC crepes for the Japanese, reed furnished breakfast-room or porch; Frenchy, flower-splashed cretonnes—the bed-rooms crispy furnishings;

—to bring out the deep colorings of an Old English stately dining room; English chintz.

Dignified tapestry cretonnes, Velours, silks—for the formal rooms—Crafts cloth, Sunfasts,—in the soft browns and greens of liveable Living Rooms!

And a capable work room to carry out your plans—intelligently.

Happenings on the Pacific Slope.

EXCLUSIVENESS PERSONIFIED.

Millionaires Establish Hot Springs Club.

Fifteen Accepted; Only Five Others May Join.

To Issue No Visitor's Cards; Wives Privileged.

(LOCAL CORRESPONDENCE.)

SANTA BARBARA, May 5.—This city has one of the most original and most exclusive social organizations in the world. It is known as "The Hot Springs Club." The object of the club is in no manner mercenary as the membership is limited to fifteen and they are to pay all expenses, consequently deriving all benefits therefrom which will include social gaieties and whatever improvement in health the springs will give.

Members of this club are millionaires or near-millionaires representing the elite of Santa Barbara and Montecito. John Edward Beale is the president and others elected to date are: Clinton B. Hale, William H. Bartlett, Mrs. James Hobart Moore, William Miller Graham, Joel Remington Fithian, Clarence Phelps Dodge, F. P. Peabody, Samuel Prescott Child, John Spoor, Frederick W. Leadbetter, Bartlett is the treasurer; Leadbetter, secretary, and Mrs. Moore and Hale directors.

The membership fee is \$2000 and after the fifteen are accepted it will be possible for only five more to join the club, their membership fee being \$5000 each. No one can be accepted unless unanimous consent is given by the club members in writing.

TO BUILD CLUBHOUSE. The Hot Springs are up the Montecito Canyon and are said to have wonderful medicinal qualities. These springs of boiling temperature and have different properties. A magnificent clubhouse is to be erected on the roadway, now almost inaccessible, will be improved for the use of automobiles.

When this resort is opened and in operation, it is believed that few of the many millionaires in this section will seek such health resorts as Carlsbad, Germany and other well-known places of the world. It will result in keeping the wealthy sick at home and under most pleasant circumstances.

The exclusiveness of the club is accentuated by the fact that no member will be allowed to issue a visitor's card. Members must accompany their guests and remain with them while they are housed within the club.

The directors and officers are elected for a period of twenty years. Each member is allotted an individual room at the resort to be furnished by himself.

A unique feature of the club is that the wives of the members have every privilege of their husbands, including the right to vote and take part in places on committees during sickness or absence.

The house committee, which has entire charge of the club, is composed entirely of ladies. Mrs. James Hobart Moore, chairman; Mrs. W. Miller Graham, Mrs. John Edward Beale, Mrs. Joel Remington Fithian, Mrs. F. P. Peabody, Mrs. Samuel Prescott Child, Mrs. Frederick William Leadbetter.

(LOCAL CORRESPONDENCE.)

RIVERVIEW, May 5.—Harking back to the time when Los Angeles was an adobe village, with only three wooden buildings, all located on Main street, nearly a hundred pioneers of Los Angeles, San Bernardino and Riverside counties today gathered at the home of Mr. and Mrs. Jonathan Tibbet, at No. 176 East Prospect avenue.

Among the company that enjoyed the hospitality of the Tibbet home was J. Frank Burns, who was born in Los Angeles county from 1843 to 1872. Burns crossed the plains in 1873, with the father of the first transcontinental line had been extended to Los Angeles.

Mr. Tibbet himself recalled the time when Tom Fitch, "by virtue of his silver tongue," extricated him from a difficult situation in which he became involved in the frontier territory of Arizona. Fitch was unable to be present, owing to an accident, but sent his regrets.

Features of the day's entertainment were the barbecue dinner, served on the park-like grounds of the Tibbet home, and a programme of old-time songs and dances, in which the young and old folks in the seventies and eighties exhibited steps of the present generation.

The Pioneer Society of San Bernardino was represented by the Standard, ing octogenarians: Sheldon, "Mother," "Mother," Felton, Printz, Mrs. Emma Case.

Riverdale's pioneer octogenarians included Mr. and Mrs. H. N. Hooper and Martin Hooper. The remainder of the company, for the most part, settled in California before 1880.

(LOCAL CORRESPONDENCE.)

VISALIA, May 5.—Mrs. Ruby C. Venator of Bakersfield has filed suit against the Southern Pacific for the death of her husband, a cattle dealer, who was run down at a crossing at Visalia August 5, 1912, and instantly killed. He was driving in his auto at the time.

GREY REACHES SAN FRANCISCO.

First Visit Means Much to State Oil Industry.

Admitted Head of Big London Syndicate.

Came to Los Angeles at End of Week.

(LOCAL CORRESPONDENCE.)

SAN FRANCISCO BUREAU OF THE TIMES, May 5.—Earl Grey, the young man who, with Lady Grey and their daughter, Lady Sybil Grey, arrived in San Francisco on the liner Manoa, extended tour of the Antipodes, the South Sea Islands and Hawaii. Earl Grey was formerly the General of Canada, and is known throughout the English-speaking world. The party were met here by Lady Evelyn Jones, the daughter of Lord and Lady Grey, and Lawrence Evelyn Jones, who is in the city, Earl Grey, will be the guest of the hotel. Officially, the party will be entertained by the city and will be the guests of the city. The party will be the guests of the city and will be the guests of the city.

Government Makes Another Move to Prevent Exhibition of Philippine Natives in United States.

SAN FRANCISCO, May 5.—Harold L. Anfenger was arrested by a deputy United States marshal today when the Japanese liner Nippon Maru arrived here, and officials of the port of Hongkong, charged with abduction and violating a section of the Philippine penal code relating to inducing minors to leave their parents or guardians. Later he was released on bonds.

Harry Miller, alias Indian Miller, is under arrest here on a similar charge. The two brought a dozen Igorrote here, and they say that the natives are for exhibition purposes. However, their arrest was accomplished on telegraphic information from Atty.-Gen. McKernolds that they are under indictment.

When the army transport Sherman sailed today for Manila, Kinalline Toyacan and Adamag, two Igorrote girls, were not on board, as McKernolds had requested. The United States District Attorney decided to detain all the natives as witnesses.

STANDARD WEST WAY. Oregon Governor Orders Militia to Close Milwaukee Club and to Appropriate Autos for Visitors.

SAN FRANCISCO, May 5.—Gov. West issued a proclamation today putting the Friars' Club, which operates what is known as the Milwaukee Tavern, under martial law, and ordered a squad of militiamen to proceed to the club and close it. Incidentally he instructed them to appropriate and put under lock and key all automobiles which might appear upon the scene with guests for the club.

"Under the guise of a club," said Gov. West, "a man named Wilbur is maintaining a resort where men and women and young girls congregate, carousing and indulging in debaucheries."

The club's purpose, according to the articles of incorporation, are to develop the physical, mental and social side of its members. A suit to annul the charter of the club is pending.

In 1912 the Governor proclaimed this same tavern under martial law, and had it closed by a squad of militiamen.

MURDERER BUNDY'S APPEAL. Supreme Court Orders Both State's and Sentenced Man's Attorneys to File Their Briefs.

SACRAMENTO, May 5.—No appearance was made today by the defense before the Supreme Court in the appeal of Louis Bundy against the death sentence hanging over him for the murder of 18-year-old Harold Ziesche of Los Angeles.

Bundy is held in the death cell at San Quentin awaiting the outcome of his appeal. The Supreme Court ordered that Asst. Atty.-Gen. Charles F. Jones be given fifteen days to file briefs in the case and that the attorneys for Bundy be given fifteen days for their reply.

The case will be submitted on these briefs and a decision can be expected about two months from now.

MELROSE NEARLY WIPED OUT. Entire Business Section of New Mexico Town Burned; Supposed Plot to Rob Bank.

ALBUQUERQUE, May 5.—The town of Melrose, 100 miles east of here, practically was wiped out by fire early today. Authorities expressed the opinion that the fire was of incendiary origin and part of an unsuccessful attempt to rob the first National bank. The entire business district was destroyed.

VISALIA "DRY" AGAIN. Five Out of Six Elections Held Within Three Years Result This Way—Local Option Adopted.

VISALIA, May 5.—Visalia's City Trustees will meet tomorrow evening and canvass the result of yesterday's election when Visalia for the sixth time within three years and three months voted upon the wet and dry issue and had her first experience with the recall law.

Semi-official returns showed that the dry local option law was adopted by the drys yesterday by a majority of 266 votes out of a total of 1652 cast. On February 24 a saloon ordinance submitted as an initiative measure was defeated by a majority of 310 in a total of 2012. The drys have carried five of the six elections in Visalia at which the saloon question was the issue.

DIGGS'S DAY IN COURT.

Witnesses Testify That Miss Peering Was Called Over Twenty Years Old by Family.

SAN FRANCISCO, May 5.—Lillian Sullivan, Ida Peering's chum, Florian E. Fischer, against whom she first made and then had dismissed a charge of criminal assault, and Paul A. Spott, who was acquitted of a similar complaint brought by the Peering girl, were the three leading witnesses today for Maury I. Diggs, who is being tried on the same charge.

Miss Sullivan related the story of Miss Peering's first meeting with Diggs, and swore that she knew his true name and the fact that he had figured recently in a "white slave" escapade. They told further of various occasions when Miss Peering or her mother had said the girl was past 20 years of age. Spott repeated the testimony given in his own trial, relating that he had found Miss Peering in Walter J. Gilligan's room, and had a drink with her, Gilligan, and Diggs on last New Year's Day.

Miss Sullivan related the story of a dinner given at Mrs. Peering's apartment shortly after Christmas, at which the provisions were supplied by Diggs. Miss Sullivan said they all drank a toast to Diggs and his recent escapade.

Mrs. Alice McCarroll, a milliner, who has known the Peering family long, said she had been told by Mrs. Peering that Miss Ida was older than her sister, who was 19. It was the testimony of the father and mother of the girl, and various other witnesses for the prosecution, that the girl was only 18 on March 9 last.

ANFENGER ALSO ARRESTED. Government Makes Another Move to Prevent Exhibition of Philippine Natives in United States.

SAN FRANCISCO, May 5.—Harold L. Anfenger was arrested by a deputy United States marshal today when the Japanese liner Nippon Maru arrived here, and officials of the port of Hongkong, charged with abduction and violating a section of the Philippine penal code relating to inducing minors to leave their parents or guardians. Later he was released on bonds.

Harry Miller, alias Indian Miller, is under arrest here on a similar charge. The two brought a dozen Igorrote here, and they say that the natives are for exhibition purposes. However, their arrest was accomplished on telegraphic information from Atty.-Gen. McKernolds that they are under indictment.

When the army transport Sherman sailed today for Manila, Kinalline Toyacan and Adamag, two Igorrote girls, were not on board, as McKernolds had requested. The United States District Attorney decided to detain all the natives as witnesses.

STANDARD WEST WAY. Oregon Governor Orders Militia to Close Milwaukee Club and to Appropriate Autos for Visitors.

SAN FRANCISCO, May 5.—Gov. West issued a proclamation today putting the Friars' Club, which operates what is known as the Milwaukee Tavern, under martial law, and ordered a squad of militiamen to proceed to the club and close it. Incidentally he instructed them to appropriate and put under lock and key all automobiles which might appear upon the scene with guests for the club.

"Under the guise of a club," said Gov. West, "a man named Wilbur is maintaining a resort where men and women and young girls congregate, carousing and indulging in debaucheries."

The club's purpose, according to the articles of incorporation, are to develop the physical, mental and social side of its members. A suit to annul the charter of the club is pending.

In 1912 the Governor proclaimed this same tavern under martial law, and had it closed by a squad of militiamen.

MURDERER BUNDY'S APPEAL. Supreme Court Orders Both State's and Sentenced Man's Attorneys to File Their Briefs.

SACRAMENTO, May 5.—No appearance was made today by the defense before the Supreme Court in the appeal of Louis Bundy against the death sentence hanging over him for the murder of 18-year-old Harold Ziesche of Los Angeles.

VISALIA "DRY" AGAIN. Five Out of Six Elections Held Within Three Years Result This Way—Local Option Adopted.

VISALIA, May 5.—Visalia's City Trustees will meet tomorrow evening and canvass the result of yesterday's election when Visalia for the sixth time within three years and three months voted upon the wet and dry issue and had her first experience with the recall law.

Semi-official returns showed that the dry local option law was adopted by the drys yesterday by a majority of 266 votes out of a total of 1652 cast. On February 24 a saloon ordinance submitted as an initiative measure was defeated by a majority of 310 in a total of 2012. The drys have carried five of the six elections in Visalia at which the saloon question was the issue.

County Starts Suit. Suit was started in the Superior Court today by the county of Tulare against the San Joaquin Light and Power Company by which the county seeks to collect 2 per cent. of the gross receipts of the power company derived in Kern county. The power

company has a franchise by the terms of which it agrees to turn over 2 per cent. of its gross earnings in this county. Maintaining that the corporation could not operate in Kern county were it not for its Tulare county franchise the Supervisors have decided to bring suit to settle a point that has never been determined in California. The company has offered Tulare county 2 per cent. of its Tulare county earnings, which offer has been rejected.

SEEKS DAMAGES. D. J. Guerin today filed suit against T. A. Wann for \$17,700.85 damages for injuries he received on November 20, 1911, near Porterville, when, riding a motorcycle, he was run over by Wann, driving an auto. Guerin declares that he was prevented from filing suit within the time allowed by law by deceit and fraud on the part of Wann, who agreed to settle out of court.

The Soldier Boys' whereabouts can be determined at a glance by studying The Times and its San Joaquin and for sale at The Times Building, first and Broadway, The Times Branch Office, 115 South Spring street, and 115 South Broadway. Price, postpaid, 10 cents.

maintaining a resort where men and women and young girls congregate, carousing and indulging in debaucheries."

R. R. SUMNER, 701 VAN NUYS BLDG.

The election of commander of the encampment, about which great interest centers, will be held Thursday morning. Dr. George C. Summers of Los Angeles is in the lead as candidate for the office, while Ben R. Tuttle is the challenger.

ties of Woodland and George Kellogg of Mendocino are candidates who have also a large following.

An entertainment was given tonight at the Ives Theater, where the G.A.R.'s were guests of honor. Katherine Tingler, and another woman, sang. A grand auditorium under the auspices of the G.A.R. was the scene. The speaker made an address here. Dr. D. Goehner, of the G.A.R., gave the invocation, and patriotic music was rendered.

POSTMASTER INDICTED.
(LOCAL CORRESPONDENCE.)

FRESNO, May 5.—The United States District Court, in session here, today indicted Charles E. Christy, postmaster at Lost Hills, Kern county, for neglecting to deliver mail for a period of thirteen months in San Quentin, California, in 1916-7. Nellie Quinn, a resident of Fresno, California, pleaded guilty to destroying letters and newspapers which she claimed had been delivered to the institution. She had been late in returning to the institution, and the postmaster would think them incompetent.

ACCUSES AN ATTORNEY.
(LOCAL CORRESPONDENCE.)

FRESNO, May 5.—Fresno is making strange news. The disappearance of a complainant in a case of alleged kidnapping by City Justice Graham's court last week, and the disappearance of a clerk, who swore to a complaint in the same court, charging Attorney A. J. The-

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.
The Civil Service Commission yesterday upheld the Board of Public Works in dismissing Horace N. Taylor from the City Engineer's department, but Taylor will be eligible to take civil service examinations for other municipal positions.

The City Engineer yesterday sent to the Council a statement in which he declared that there are serious difficulties in the way of proceeding with one hole of the proposed two-hole tunnel for West First street, and that both should proceed together.

Advertisers in the unblemished Municipal News refused to pay their advertising charges and the city now has to pay a collector \$6 per cent. in order to get a return on its outlay. So far \$12 has been collected, of which the collector gets \$6.

Petitions were filed with the Police Commission yesterday for the closing of two more blocks to issuance of further liquor permits.

The sensational series of supposed Black Hand outrages in Little Italy a year ago are in court on the contest of two insurance companies, who assert that the damage in one case, at least, was not caused by a bomb but by fire.

At the City Hall.
BOARD DENIES TAYLOR APPEAL.

HE WILL NOT BE RESTORED AS MUNICIPAL DRAFTSMAN.

Public Works Members Declare They Do Not Wish to Discourage Employees Appearing Before Them to Discuss Public Affairs, but Didn't Like Man's Methods.

Horace N. Taylor will not be restored to his former position as draftsman in the City Engineer's office, from which he was discharged by the Board of Public Works recently, on the charge of insubordination. The Civil Service Commission yesterday upheld the board in its action.

The hearing on Taylor's appeal to the Civil Service Commission was a lengthy one, and all phases of the situation were gone into. The conclusion was that the board would not order the reinstatement of Taylor, but that it regards him as an efficient engineer and that the board's action should not stand in the way of Taylor being eligible to take civil service examinations for other positions in the city service.

The methods of Taylor in getting his allegations before the public, rather than the basis of his complaints, were the objectionable features in his attitude, decided the commission. Taylor recently made caustic criticisms of the Board of Public Works and the management of the City Engineer's office, sending his communications to the public prints, instead of appearing before the Board of Public Works, under whose jurisdiction the office is placed, and presenting his case.

In the hearing yesterday, President Handley of the Board of Public Works declared that this board does not wish to stifle expression from city employees on questions concerning affairs with which the board has to deal, but that it must insist upon a proper policy being observed in such cases.

He called attention to the fact that this is the second time Taylor has pursued similar methods in airing his grievances, and said: "This last letter was a stunner. We know the St. Mary's Academy, over which this disturbance was raised, is outside the city, but we also know that we are at liberty to make exceptions in cases of educational or charitable institutions. We cannot tolerate the insubordination of our employees that we have ulterior motives in our public acts. We do not object to Taylor calling attention of the board to the matter and presenting his views thereon, but we do object to the methods he employed and in the interests of discipline we were forced to dismiss him."

SAD AFTERMATH.
ADVERTISERS WON'T PAY.

A discordant echo of the late unblemished Municipal News, that squandered \$47,000 of the taxpayers' money in one year and then was voted out of existence, has been heard before the Finance Committee of the City Council.

Advertisers who were blighted into inserting advertisements in the paper that they would get value received, and that the Municipal News was really circulating thousands of copies throughout the city, have refused to pay their bills. In order to try to receive at least a trifle from the ill-spent public funds an arrangement has been entered into with a collection agent to try to collect these advertising bills and to retain one-half of the proceeds as his recompense.

So far the collector has collected just \$12, of which the city gets \$6. The Finance Committee reluctantly authorized the payment of the commission.

THIS IS AWFUL.
BOND COMPANY SELLS BONDS.

Members of the City Council who connived to disfranchise the voters and refused them the right to vote on the power bond proposition, separately, took turns having conviction fits in the Council chamber yesterday over two things. One of these was, in substance, that it has been discovered that a bond company sells bonds and the other that an appeal has been made to the fire and police department employees to vote against the bond issue of \$5,500,000.

A bond company should be so wicked as to buy and sell bonds of a power company furnished ammunition for several pop-gun explosions by some of the Councilmen before their feelings were sufficiently relieved to proceed with the city's business.

MORE TRANSFERS.
POLICE COMMISSION'S ACTION.
A No. 2 restaurant liquor permit was granted to Samuel D. Wampler for No. 305 Central avenue. A similar permit was granted to Charles Frish for No. 233 West Seventh street. The application of Robert Meyers for a similar permit for No. 110 East Seventh street, was denied.

The Italian Club, No. 1017 Wilde street, was granted a social club liquor permit.

Yick Chang asked for a No. 2 restaurant liquor permit for No. 237 East First street, but the application was denied.

The saloon permit held by Murray M. Sommerfield for No. 437 North Los Angeles street was transferred to John H. Wolfgram, for No. 504 South Main street.

Ed Schults was allowed to transfer his saloon entrance from No. 292 Franklin street to No. 133 North Spring street.

MOVEMENT GROWS.
FOR CLOSING BLOCKS.

The general movement for closing blocks with liquor No. 1 to the issuance of further liquor permits appears to be growing. At yesterday's meeting of the Police Commission there was a petition presented asking for the closing of West Seventh street, from Olive street to Grand avenue. These were referred to the Police Commission for checking the frontage represented.

The petition to close Main street, between Fifth and Sixth streets, failed because of the withdrawal of signatures, leaving only 13.1 per cent. of the frontage in favor of the closing. Because of showing the signatures on the petition to close Ninth street, from Main to Broadway, were not qualified to sign, that block automatically is reopened to the granting of liquor permits.

Municipal Notes.
The City Engineer's recommendation that the name of Adams place be changed to St. Andrews place, on account of being nearly in line with St. Andrews place, was adopted by the City Council yesterday. The name of Ruth avenue, from Eighth street to Central avenue, is to be changed to Stanford avenue.

The assessment map for the improvement of Mission road from the lardo to Alhambra was approved by the Council yesterday.

There are two Carondelet streets, only fifty feet apart, extending northwesterly from Third street. The Council yesterday decided that the name of the more easterly street shall be changed to "Grand."

Allesandro street is to be extended from its present northerly terminus across the river to connect with San Fernando road. An assessment district will be formed.

The Council yesterday adopted the report of the City Engineer providing for the change of name of the new Ancon street in San Pedro to Paraiso street. There is an old street in San Pedro named Ancon. In both San Pedro and Wilmington there are streets called Colon. The one in San Pedro is the newer and this is to be changed to Miraflores street. A similar condition exists in regard to two Channel streets. The one in Wilmington is to be changed.

The Civil Service Commission yesterday approved the policy of the Board of Public Works of allowing indefinite leaves of absence with full pay to members of the State militia who have been called away from their municipal employment for military duty.

The Civil Service Commission yesterday decided to have instructions issued to city departments that no person shall be given emergency appointments in the city service who is eligible to civil service examination.

The Municipal Charities Commission asked the Civil Service Commission yesterday to remove Miss Nell B. Lynn from the eligible list as clerk in the women's department of the municipal employment bureau, on the ground that her appointment would tend to create unharmonious conditions. Dr. Millbank Johnson, president of the Municipal Charities Commission, was called before the board and informed that if his commission wants to be rid of the employee mentioned it must proceed in the regular course.

The Public Works Committee of the Council yesterday afternoon gave a hearing to the proponents of the various tunnel portal-projects. One side wants the east portal of the Second-street tunnel at Olive street and the other wants it at Clay street. The committee listened to arguments for several hours and then took the subject under advisement.

The Police Commission yesterday suspended for thirty days the saloon permit of Dan F. Case, No. 901 East First street, on the grounds of improper conduct of business. The case has been before the commission since November.

written by Coniglio's daughter, Gerty. Something was also said about manufacturing testimony which brought the remark from Judge Hewitt that if there was any attempt in this direction, he wanted to know about it.

The trial of the suit has been thorough, the fire insurance companies bending every effort to show that the store was destroyed by an explosion and the plaintiff to prove that it was due to fire. An important witness is Patrolman MacMahon, who received the alleged Black Hand letters from Coniglio shortly after the fire, with the exclamation: "Well, they got me."

MacMahon says he is being followed by Italians since he was put on the case.

LONG BEACH BOOMS.
AND GETS INTO COURT.
The tremendous increase in the value of property at Long Beach was made evident in the trial of the suit of V. H. Holmes against various parties to recover about \$10,000 in subscriptions pledged when the Craig Shipbuilding Company located its plant, and not paid.

At that time the Los Angeles Dock and Terminal Company gave thirty acres to the company for a site. The value then was about \$100,000, but now the land is worth about \$300,000. The citizens of Long Beach were asked to subscribe for the new enterprise and subscription contracts were made by many. The total amount subscribed was \$250,000.

The delinquents set up that the statute of limitations has run, the project having been established more than four years ago; it was also contended that the company did not comply with the conditions precedent. Other technical objections to paying the money were raised.

HOW MUCH IS HERE?
DIVORCE ASKS ACCOUNTING.
As a means of ascertaining what property her former husband, Hugh Glassell, owns, Mrs. Weta G. Glassell yesterday filed suit for an accounting against the Southern Trust Company, administrator of the estate of Andrew Glassell, father of Hugh, and valued at \$1,200,000, and the estate of his brother, Philip Glassell; Ralph Rogers and others. Mrs. Glassell alleges that her husband died in 1908, in trust for Hugh Glassell under a secret agreement.

About two months ago Mrs. Glassell obtained a decree of divorce in Judge Shenk's court. She was awarded the custody of her adopted daughter, Lucy Louise Glassell, and one-half of all property owned by Glassell, who at that time was in British Columbia. Hugh Glassell's property consists of a one-eleventh interest in the estate of his father and an interest in the estate of his brother, Philip.

CLAIMS EQUIT.
DENIES STOCK THEFT.
In Judge Willis's court yesterday G. Burr Casler, arrested in Australia on a charge of embezzling stock of the Union Brewing Company of Anaheim valued at \$450, the property of A. Silver, pleaded not guilty, and his trial was fixed for June 12. It is understood that Casler claims he had a large equity in the stock.

J. W. Palmer, who pleaded guilty to "killing" a bad check, was allowed to go on probation for three years.

Robert Curi, guilty of a lewd act, was given probation of five years.

James McGraw, who pleaded guilty of forgery, and was before the court for sentence, pending consideration of a plea for probation, was turned over to the lunacy commission. McGraw was given probation of five years.

At the Courthouse.
BLACK HANDERS' BOMB OR FIRE?

INSURANCE COMPANIES FIGHT ITALIAN'S CLAIM.
Long Series of Conflagrations and Explosions in Little Italy Stir Underwriters to Investigation and Velled Hints of Fraud Fly Fast in the Courtroom.

Black Hand letters alleged to have been received by A. Coniglio, an Italian merchant whose store at No. 1210 Lemon street was destroyed by an explosion July 21, 1913, figure in the trial of the suit of Coniglio against the fire insurance companies to collect the amount of the policies.

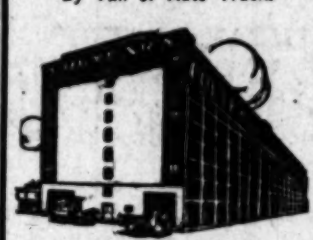

The companies are contesting his claim on the ground that the store was destroyed by a bomb and not by fire. They are also endeavoring to ascertain whether the letters are the genuine product of a gang for the purpose of extorting money or fake letters.

It is the first case that the insurance companies have fought, other cases having been compromised. R. H. Davis, special agent and fire insurance adjuster, who has been working on this and other cases, states that there have been nearly a score of stores and buildings in the Italian colony destroyed by bombs.

Coniglio, who said he was unable to read or write, was asked some pertinent questions by Attorney LAYNE, representing the defendants, vigorous objections being registered by Attorney Parker, his counsel.

He was asked pointblank whether he understood to prove that any of the so-called Black Hand letters were

COURT PARAGRAPHS.
PROCEEDINGS IN BRIEF.
ESTATE IN TRUST. The \$150,000 estate of William H. Paulin, who died April 27 last, was left in trust with the German-American Trust and Savings Bank, the widow, Mrs. Emma Paulin, receiving an income of \$1000 a year, and the balance of the income being shared with the children, Mrs. Clara G. Dickey of San Jose, Charles D. and James H. Dickey of Tulare county. The widow also receives the furniture and furnishings of the residence at Sixth and Oxford streets.

DAMAGES AWARDED. A jury placed the value of the life of Trefone Petonez, 18 years old and the sole support of his widowed mother, Christina, aged 50, at \$2000 yesterday. Mrs. Petonez sued the Gilhouse Brothers Company, Bert and C. E. Gilhouse, for causing the death of her boy. Bert drove the machine which struck Trefone, and judgment was given against him.

NAMES WIDOW. Mrs. Crystal Mathewson, widow of Claude Mathewson, who shot Nellie Murdoch at his hotel, the Lorraine, and then put the gun to his own head, was appointed administrator of his \$2500 estate by Judge Rives yesterday. The tragedy occurred April 10, last, at No. 210 Clay street.

TRINIDAD (Colo.) May 6.—
The arrival of United States troops was shown them by strikers, according to one major.

The superintendent stationed at Petoskey with two troops of Eleventh Cavalry reported that a farmer from whom he had been purchasing supplies was warned by others to sell no more forage to the army. The farmer refused milk, butter and eggs when the sergeant asked them today.

The lieutenant in command of the detachment immediately sent to the strikers' tent colony at Forbes a demand for an explanation. He demanded but informed the strikers that the United States army would be stationed wherever it chose, and would be placed on the property of the farmer.

Last night the third squadron of Eleventh Cavalry from Ft. Ord, Cal., composed of Capt. J. E. and M. M. numbering about 100, arrived after having been ordered by headquarters in Oklahoma to take command of the troops at the fair ground camp at the fair ground.

CITY. The ten Monrovia charged with assault upon a editor dropped their bravado when the seriousness of the case was realized.

City's largest investors, representing money to scatter commercial loss is a financial situation developed in City Council where Prohibitionists interests fought shoulder to shoulder for the same thing.

Prohibitionists will officially open the tonight with a monster rally, which Controller Prendergast, who nominated Roosevelt, will also address.

In order to save expense, a hospital is to be built on the first time in California, a hospital is to be built.

The scene was witnessed in yesterday, when a wife hugged her husband's paramour.

The singer was bound over to the court, reader who would do justice to the summary, comprehensive though it is, which necessarily cannot be longer.
